If you applied for multiple boards, which boards are you most interested in serving on, in order of preference? (Limit to top three)

1) Port of Corpus Christi, 2) Crime Control and Prevention District

Why are you interested in serving on a City board, commission or committee?

I am a trained, quantitative sociologist. I regularly use data from the Bureau of Labor Statistics, the American Community Survey, and the U.S. Census in my research and while teaching my classes. I've spent nearly two decades teaching a course titled, "Social Class and Inequality" where I've required my students to apply concepts to these regional data. What's more, I've been a researcher for Health Needs Assessments in the Coastal Bend since 2010, and I have conducted research that examines the impact of economic inequality on people's life chances. Moreover, as a concerned citizen, I've paid close attention to the operations of the Port of Corpus Christi as well as economic reports produced by the Coastal Bend Council of Governments. I believe my professional training as a social scientist, as well as my research activities, as well as my years of civic engagement make me a uniquely qualified person to serve as a Port Commissioner.
