Topic	Proposed Changes to Watering Restrictions
Agenda Item Number	n/a
Describe Feedback:	Postpone your decisions regarding watering restrictions until after hurricane season. One tropical rain system, in the right spot, could fill up Lake Corpus Christi and Choke Canyon to 50% plus. It's happened before. Revise the Drought Contingency Plan to include Lake Texana. This water, which accounts for as much as 50% of water delivered to Corpus Christi homes, isn't included in the calculations for watering restrictions. Hand watering/drip irrigation are very efficient and will keep landscaping alive if we don't get rain. Don't treat the same as automatic sprinklers! I'm concerned the Stage 3 ban on outdoor watering for residential water users is too restrictive. Residences account for less than half of city water use and only some of those users water their landscapes. As a result, Stage 3 restrictions on watering plants would impact only a small portion of overall water use. Consider hand watering and drip irrigation to be allowed every other day during Stage 3 restrictions.

Topic	Objection to Request to Change Zoning
Agenda Item Number	24-1072
Describe Feedback:	<p>This request was rejected by the City Council before. The only difference this time is the location was shifted over a few feet to avoid providing notice to my family and neighbors. An RV park is inconsistent with the development plan for Mustang Island. Mustang Island needs hotels, resorts, condos and high-end residential. Allowing this RV park will cause significant loss in property value and make traffic congestion on Mustang Island and the logistics of evacuation in the event of a hurricane significantly worse. The City Council has already granted a special use permit with certain restrictions to allow another RV park very close to this property. Two RV parks in close proximity would be even worse. Please deny the requested zoning change, but if you don't deny, at least limit them to a special use permit with similar restrictions to those approved before, such as max 8 RV sites per acre / RV sites min 30' wide / only 1 RV per site / concrete pads min 15' wide.</p>
