We recently returned to the area. I have a keen interest in the Public Library System and would like to make a contribution of my time and experience. Why are you interested in serving on a City board, commission or committee?

Our city is a diamond in the rough and I would like to help make it shine. The Sea wall and Marina is one of our centerpieces and unfortunately due to aging and recent hurricanes, the Marina has become pretty run down. I would love to help with the efforts to preserve the Marina.

Marina

Why are you interested in serving on a City board, commission or committee?

I believe in serving the community and have skills that will add value to decisions made. When I moved to Corpus Christi as a young Engineer I personally conducted the underwater survey of damage to our Seawall and L-Head/T-Head structures with Goldston Engineering. The resultant reports and design proposal was adopted by the city and is in place today. Furthermore I was instrumental in collecting and presenting data to Congress that brought the Homeport to Corpus Christi. I worked on the GCCA Redfish hatchery and King Ranch Shrimp Farm in the 1980. I went on to work in the International Oil and Gas Industry as an engineer and progressed to VP of a Major Supplier of Equipment and Services Worldwide. I had 200 employees and offices in Corpus Christi, Houston, Chicago, Norway, Dubai and Singapore. After retiring I started an independent engineering company focused on Texas Windstorm Certifications and Marine Industrial Infrastructure.
