

Michael J. Ellis Seawall Improvements At North Padre Island

Council Presentation
December 3, 2024

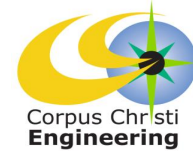

Michael J Ellis Seawall Improvements At North Padre Island Project Location

Michael J Ellis Seawall Improvements At North Padre Island Scope of Work

Motion awarding a contract to Hanson Professional Services of Corpus Christi, TX for the design of Michael J. Ellis Seawall Improvements, located in Council District 4, in an amount of \$1,181,870.00.

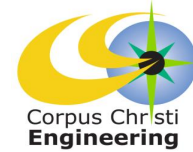

The existing seawall and its promenade attracts visitors and activity to Whitecap Beach. Presently, the seawall features consistent superficial cracking and spalling, and the City seeks to use public funding for its repair. The City also intends to take legal responsibility for the seawall through legal agreements with property owners and providing for its rehabilitation. Establishing legal responsibility for the seawall creates potential eligibility for FEMA funding in the event of a disaster.

The proposed improvements includes the listed below items:

- A concrete cap over the wall and promenade
 - Shade Structures
 - LED Pedestrian lighting
 - Water Service
 - Electrical Service
-

Michael J Ellis Seawall Improvements At North Padre Island Project Schedule
