Project # 24132
Project Name Whitecap Effluent Waterline Rehabilitation and Extension

Contact	Dir of Planning & Economic Development	Department	Economic Development
Type	Improvement/Additions	Category	Reinvestment Zone 2
Priority	Priority Level 1	Status	Completed
Useful Life	25 years	Council District	4

Description

This project will be the design and construction of the effluent waterline that supplied the golf course on North Padre Island. Due to the construction of the Whitecap Development there is a need to reactivate this line and extend it to provide water to the ponds in the nature preserve area. The City has requested that the Developer construct improvements to the existing Effluent Waterline from the Whitecap Wastewater Treatment Plant and entered into a participation agreement for the requested public improvements with the Developer.

Justification

The previous aged and retired waterline must be rehabilitated and extended to feed water to the ponds at the nature preserve area. This project is deemed a priority by ISAC and the use of this water at the nature preserves ponds is environmentally positive.
