<u>Name</u>	<u>Title/Position</u>	<u>Department</u>
1. Daniel McGinn	Director	Planning
2. Jeff Edmonds	Director	Engineering

OUTSIDE PRESENTER(S):

<u>Name</u>	<u>Title/Position</u>	<u>Organization</u>
1. None		

BACKGROUND :

Per the 2009 study by HDR on the condition evaluation, design and construction of the seawall, this USACE Bulkhead Repairs project was proposed. This project enhances the flood protection system currently in place within the project area by providing erosion protection in front of the existing flood wall. This project further enhances the flood protection system currently in place within the project area by stabilizing the low-lying areas of the PCCA shoreline and replacing and raising the level of the existing bulkhead along the USACE shoreline.
