Background:

The subject property is a 53-acre tract in the London Area, outside the corporate limits of the City of Corpus Christi, made accessible by an access along the south side of FM (Farm-to-Market) 2444 Road/Weber Road, an "A3" class arterial, and is part of a larger parcel slated to be developed as two units. The first phase appears to be connected to subject application for rezoning, and will include approximately 81 lots.

The subject property is immediately west of the City's limits along Weber Road. To the north of the subject parcel, properties are "OCL" Outside City Limits with agricultural uses, as to the south, and west. The properties to the east are zoned "RS-15" Single-Family 15 and "RE" Residential Estate, with agricultural land uses.

The applicant is requesting a change in zoning for a low-density residential subdivision. The "RS-22" Single Family 22 Residential District permit single-family detached houses, group homes, and limited public and civic uses.

Plan CC (City of Corpus Christi Comprehensive Plan) Consistency:

The proposed rezoning is consistent with the following Elements, Goals and Strategies for Decision Makers:

- Future Land Use, Zoning, and Urban Design
 - Corpus Christi development patterns support efficient and cost-effective use of resources and a high quality of life.
 - Encourage orderly growth of new residential, commercial, and industrial areas.
 - Promote a balanced mix of land uses to accommodate continuous growth and promote the proper location of land uses based on compatibility, locational needs, and characteristics of each use.
 - Corpus Christi has well-designed neighborhoods and built environments.
 - Support the separation of high-volume traffic from residential areas or other noise-sensitive land uses.
 - Encourage convenient access from medium-density residential development to arterial roads.

London ADP (Area Development Plan) and FLUM (Future Land Use Map) Consistency:

The proposed rezoning is consistent with the London ADP; however, it is inconsistent with the future land use designation of Medium-Density Residential

Staff Analysis:

Staff reviewed the subject property's background information and the applicant's purpose for the rezoning request and conducted research into the property's land development history to include platting, zoning, existing surrounding land uses, and potential code violations. Staff compared the proposed zoning's consistency with the applicable elements of the comprehensive plan. As a result of the above analysis, staff notes the following:

- The proposed rezoning is consistent with the City of Corpus Christi Comprehensive plan; however, it is inconsistent with the future land use designation of Medium-Density Residential
- The amendment, if approved, will be compatible with the present zoning and conforming uses of nearby properties, and with the character of the surrounding area.
- The property to be rezoned is suitable for use permitted by the zoning district that would be applied by the proposed amendment and will not have a negative impact upon the surrounding neighborhood.

Staff Recommendation:

After evaluation of case materials provided and subsequent staff analysis including land development, surrounding uses and zoning, transportation and circulation, utilities, Comprehensive Plan consistency, and considering public input, staff recommends approval of the change of zoning from the "FR" Farm Rural District, to be granted upon annexation, to the "RS-22" Single-Family 22 District.
