Topic proposed Housing Needs Assessment and Toolkit to be included in the FY 2026 Corpus Christi Housing Finance Corporation budget

Agenda Item Number 34

Comment

From:

Fr Bruce Wilson, residing in District 5, affirming my support and gratitude for this proposal in item 34, from the Planning and Community Development Department.

Gathering the data specified in the "proposed Housing Needs Assessment and Toolkit to be included in the FY 2026 Corpus Christi Housing Finance Corporation budget," is the first step toward developing a full housing development plan for our community.

If implemented, this is the first appropriate step for developing such a plan. Without such a plan our housing development will continue uninformed of the actual data needed for a proactive housing development plan.

At this time, we have an overabundance of housing being developed in the name of "affordable housing" even though it is not affordable for the residents who actually need it most. Our lack of planning has already led to some serious problems facing our community. We need evidence based decisions as we

move forward.

Adequate water is not our only crisis.
