

**City Councilmembers' Comments on the Second Draft of Plan CC
As of October 19, 2015**

No.	By	Comment	Staff Recommendation	PC Recommendation No.
1	McIntyre	Remove the Turtle Cove neighborhood from the Transition Special Aviation District around NAS-CC.	Staff recommends this change.	
2	McIntyre	Remove the Floodplain Conservation designation in the Future Land Use Map from the properties on either side of Laguna Shores Road. Revert to today's Future Land Use Map, which shows mostly commercial uses.	The Floodplain Conservation designation along the east and west sides of Laguna Shores Road will be removed and the Future Land Use Map will reflect the current adopted Future Land Use Map uses, which are primarily commercial and medium-density residential uses. (This change would also be consistent with Planning Commission recommendation #65 as it relates to reducing the Floodplain Conservation designation.)	65
3	McIntyre	Add a reference to the importance of a regional solution to water.	Page 30, Element 7, Goal 2 -- Add a policy that reads: "Support efforts to find a regional solution to the water supply."
