The City Council designates at least one of its appointees to represent the interests of the "transportation disadvantaged". ☒ Yes ☐ No

Question applies to CORPUS CHRISTI REGIONAL TRANSPORTATION AUTHORITY

**Explain how you represent the interests of the transportation disadvantaged.
(If No, enter "N/A")**

Representing the transportation disadvantaged—our elderly, individuals with disabilities, and low-income residents—requires looking at public transit not just as a network of vehicles, but as an essential, high-reliability infrastructure system that drives economic mobility and community health. With a professional background rooted in complex systems engineering, large-scale infrastructure project management, and financial analysis, I bring a structured, data-driven approach to advocating for these communities. I understand that for an elderly resident heading to a medical appointment or a low-income worker commuting to a shift, a late bus or an inaccessible stop isn't just an inconvenience; it is a systemic failure that impacts their livelihood. If appointed, I will represent these crucial interests by focusing on three areas: System Reliability & Accessibility: Applying rigorous engineering oversight to ensure asset management, route planning, and specialized services (like B-Line paratransit) minimize downtime and maximize physical accessibility. Fiscal Responsibility & Grant Optimization: Leveraging financial stewardship to ensure that CCRTA capital investments and federal funding are deployed efficiently, prioritizing modernizations that directly improve safety and lower barrier-to-entry costs for low-income riders. Future-Proofing Infrastructure: Evaluating long-term transit investments with an eye toward sustainability and resilience, ensuring our system remains robust and affordable for the communities that rely on it most. Ultimately, I believe a transit authority is measured by how effectively it serves those with the fewest alternatives. I am fully committed to ensuring that the voices of Corpus Christi's transportation-disadvantaged residents are central to every infrastructure, policy, and budgetary decision the Board makes.
