**Background:**

The subject property is 9.87 acres of land out of platted and un-platted parcels out of multiple subdivisions in the Flour Bluff area of the City. The parcel abuts nearly half the block face along Glenoak Drive, a minor residential collector, and approximately an eighth of the block face along Laguna Shores Road, a local residential road.

The properties to the north are zoned “RS-6” Single-Family 6 District and “RM-1” Multi-Family District, with water and vacant land; to the east, properties are zoned “RS-6” Single-Family 6 and “CR-1” Resort Commercial, with Low-Density Residential uses, and vacant land; to the west, properties are zoned “RS-6” Single-Family 6 District, “CN-1” Neighborhood Commercial District, and “CR-1” Resort Commercial District, all undeveloped, and vacant; and to the west properties are zoned “RS-6” Single-Family 6 District to the west, with vacant land, and Low-density Residential uses.

The applicant is requesting a change in zoning to accommodate a multi-use development. Along Glenoak Drive, the applicant is requesting a change of zoning from the “RS-6” Single-Family 6 District to the “CN-1” Neighborhood Commercial District. Refer to the exhibits under Attachment A Metes and Bounds Description with Exhibit. Along Laguna Shores Road, to a depth of 1,200 feet, the applicant is requesting a change of zoning from the “RS-6” Single-Family 6 District to the “RM-1” Multi-Family District.

The “CN-1” Neighborhood Commercial District permits office uses, multifamily dwellings, certain indoor recreation uses, retail sales and service uses, medical facility uses, overnight accommodation uses, and restaurant uses less than 5,000 square feet in gross floor area; and the “RM-1” Multifamily District permits apartments, single-family and two-family houses, townhomes, cottage housing developments, group homes, educational facilities, parks and open areas, and places of worship.

- The Neighborhood Commercial zoning districts provide areas for commercial activity such as sale of convenience goods and personal services that primarily benefit nearby residential areas. Neighborhood commercial areas are generally located within neighborhoods and have pedestrian access to adjacent residential areas.
- The Multifamily zoning districts provide a variety of housing types at multifamily densities. Housing types may take the form of single-family detached, zero lot line, traditional semi-attached, two-family, townhouse or apartment units. These zoning districts are used in areas having convenient access to collectors and arterial streets, and nearby civic and commercial uses, as well as employment opportunities.

**Plan CC (City of Corpus Christi Comprehensive Plan) Consistency:**

The proposed rezoning is consistent with Elements, Goals and Strategies for Decision Makers:

- Corpus Christi development patterns support efficient and cost-effective use of resources and a high quality of life.
  - Promote the stabilization, revitalization, and redevelopment of older neighborhoods.
  - Encourage orderly growth of new residential, commercial, and industrial areas.
  - Promote a balanced mix of land uses to accommodate continuous growth and promote the proper location of land uses based on compatibility, locational needs, and characteristics of each use.
- Corpus Christi has well-designed neighborhoods and environments.

- Encourage residential infill development on vacant lots within or adjacent to existing neighborhoods.

**Flour Bluff ADP (Area Development Plan) and FLUM (Future Land Use Map) Consistency:**

The proposed rezoning is consistent with the Flour Bluff ADP; however, is partially inconsistent with the commercial land use request along Glenoak Drive.

**Staff Analysis:**

Staff reviewed the subject property's background information and the applicant's purpose for the rezoning request and conducted research into the property's land development history to include platting, zoning, existing surrounding land uses, and potential code violations. Staff compared the proposed zoning's consistency with the applicable elements of the comprehensive plan. As a result of the above analysis, staff notes the following:

- The proposed rezoning is consistent with the City of Corpus Christi Comprehensive plan; however, is partially inconsistent with the future land use designation of High-Density Residential use.
  - There are limited commercial developments south of the freeway that could support the surrounding residential subdivisions. Flour Bluff is considerably zoned for residential uses.
- The requested districts are compatible with the present zoning and conforming uses of nearby properties.
  - Neighborhood scaled commercial developments are compatible with residential districts; and staff does not foresee any adverse impacts to the surrounding area.
  - The property is suitable for the uses permitted in the district to be applied by the amendment if approved.

**Staff Recommendation:**

After evaluation of case materials provided and subsequent staff analysis including land development, surrounding uses and zoning, transportation and circulation, utilities, Comprehensive Plan consistency, and considering public input, Staff Recommends approval of the change of zoning from the "RS-6" Single-Family 6 District to the "RM-1" Multifamily and "CN-1" Neighborhood Commercial Districts.
