Comment

Corpus Christi's Type B sales tax money gets divvied up like this:

- Half (50%) heads straight to economic development incentives—like that \$2 million 'helping hand' for the Homewood Suites hotel. (Because nothing says 'economic boom' like a rooftop bar!)
- Up to \$500,000 a year for housing—fair enough.
- And whatever's left over? That's for streets: millions budgeted yearly for fixing arterials, collectors, and those charming potholes we all swerve around like it's a video game (recent Southside fixes and over \$6 million proposed for FY26 from Type B Streets).

So that \$2 million could've patched some craters instead of padding a hotel developer's pocket. With our roads looking like the surface of the moon and budget shortfalls everywhere, why play Santa for a hotel when our cars are begging for real help? Let's rethink priorities—fix the infrastructure first! Thank you

I ask that you do not act on Agenda Item #15, the discussion and possible action on the petition to remove the Mayor.

Agenda Item Number

Comment

I respect the individual who put together the removal petition- articles of impeachment, & the 2,200 people who signed it. While I have strongly disagreed with some of the Mayor's decisions, especially pushing the IH desal project b4 the FFM is completed & reviewed, voters should remember this petition is based on one issue: Homewood Suites & the altered screenshot that others also knew about. We must hold everyone involved accountable, not just the Mayor, but also other CCMs & City Mgr. A petition targeting only the Mayor doesn't accomplish that. I believe this effort undermines local democracy & risks disregarding the will of the voters, the 46,759 votes the Mayor recd in Nov '24 & the 14,284 votes in the Dec '24 runoff. Allowing this effort to dominate the agenda only deepens division in our city. With a water crisis b4 us, we need collaborative governance, not more political fighting - I ask you to reject this effort to escalate conflict. Do not act on this agenda item #15.

The Case for Developing a Field Monitoring Program for the Inner Harbor

I am requesting City Council and City Staff to develop a monitoring program to better understand desalination in the Inner Harbor, beginning within the next six months.

The Situation

The City of Corpus Christi is developing a Seawater Desalination plant and is considering purchasing water from another desalination plant in the Inner Harbor. Even though the City is developing a far field model to better understand impacts to the Inner Harbor, field monitoring is still needed to 1.) characterize water quality before and after desalination, and 2.) validate far field modeling set up and results.

Draft Proposal

- Monthly water quality measurements at various points in the Inner Harbor channel. Preferably, one year before and after a desalination plant goes online.
 - TCEQ stations (active & retired).
 - Desalination plant intake and outfall locations
- One seven-day study **before** the commissioning of a desalination plant. Preferably, in August when wind speeds are lower than average.
- One seven-day study **after** the commissioning of a desalination plant.

The Solution

Ideally, the City would be the lead entity for the project and would contract the work out to an engineering firm or local university. I know TAMUCC has done monitoring out there before in the early 2010's. For funding, I imagine there are opportunities out there to help finance the monitoring (TWDB, TCEQ, etc.). Additionally, a report should be generated showing the results and how they match up with the City's far field modeling.

The Recommendation

I recommend the City to pursue a monitoring program because it will aid decision-making on desalination in the Inner Harbor, it will demonstrate permit compliance, and it will reassure residents the project is protective of the environment.

Respectfully,
Jason Hale

Comment

As a former Assistant City Manager, I was deeply involved in addressing past drought situations and the construction of the Mary Rhodes Pipeline. Now is not the time to be distracted with the issues brought up in the impeachment petition; the focus of the council and staff needs to be on sustainable water supply both in the near term and for the future.

The subject of the petition has been thoroughly investigated by multiple agencies, and no illegal actions were found. Many council members, both past and present, have voted for projects and other legislation that benefitted their campaign donors.

I fully support Mayor Guajardo. I urge the City Council to take no further action and end this distraction so that the city doesn't look worse in the eyes of the rest of the state and the country.

Solar Equity pilot

Comment

Solar United Neighbors is a 501c3 that is working to take down the barriers for going solar. We have grant funding to help 5-6 income-qualified homes in areas served by AEP utility to add solar and reduce their energy burden.

We have done similar grant-funded work in Houston, where we received help getting the word out from Baker Ripley's weatherization program, and later from a local organization West Street Recovery. We were able to help 22 homeowners go solar between those two programs. We can provide a write-up about the work with West Street Recovery if that is helpful.

Would the City Council be willing to help us get the word out about this opportunity? The flyer is attached.

There is a time crunch on the funding, so getting the word out about the opportunity sooner is better. You can respond to me, or any of our Texas team at txteam@solarunitedneighbors.org.

Thank you!

Nueces County Solar Equity Pilot

**Learn. Qualify.
Save money.**

Solar United Neighbors (SUN) is a nonprofit that helps everyday people go solar and keep more money in their pocket. Thanks to grant funding, income-qualified Nueces County residents may be able to go solar at **little or no upfront cost**, and save an average of \$50 per month on their electricity bill.

This opportunity is available through April 30, 2026. Spots are limited, so don't wait. Not sure if you qualify? Reach out anyway. We'll walk you through it!
