

# JDT RPR SERVICES CONTRACT

AIRPORT BOARD MEETING  
SEPTEMBER 27<sup>TH</sup>, 2023

# JDT RPR Services, Inc. Contract

18-month service agreement to perform staff augmentation services for construction inspections at the Corpus Christi International Airport.

Services will support the \$18M Terminal Rehabilitation Project and are 90% reimbursable by the FAA through Airport Improvement Program grants.

Goal of contract is to separate construction inspection services from the Design Firm, who has historically contracted to perform services through all phases of the project. Separating these services ensures an impartial third-party perspective and delivers better overall quality assurance of the project.
