Public Hearing
**Public Hearing on the Capital Improvement Project for Floodwall Upgrades at the Science
Museum in an amount not to exceed \$4,255,000.**

BACKGROUND:

The Capital Improvement Project for Floodwall Upgrades at the Corpus Christi Museum of Science and History was approved during the June 8, 2026, Corpus Christi B Corporation Board meeting. This item is being presented to hold the required public hearing and provide an opportunity for public comment on the project.

The project includes the construction of a new floodwall at the Corpus Christi Museum of Science and History and a bulkhead extending from the existing Corpus Christi Ship Channel overlook, located just east of the Harbor Bridge, along the shoreline of the Ship Channel to the western extent of the City's existing seawall at the Art Museum of South Texas.

A public hearing for the use of Type B funds must be held before funds may be expended on the project. Funds cannot be expended until 60 days after the public hearing. A total of \$4,255,000 in Type B Fund 1160 Seawall and City-wide Flood Control will be used for this project in Fiscal Year 2027.
