

## **WATER ARTERIAL TRANSMISSION AND GRID MAIN CONSTRUCTION AND REIMBURSEMENT AGREEMENT**

This Water Arterial Transmission and Grid Main Reimbursement Agreement ("Agreement") is entered into between the City of Corpus Christi ("City"), a Texas home-rule municipality, and **MPM Development, LP**, ("Developer/Owner"), a Texas Limited Partnership.

**WHEREAS**, the Developer/Owner, in compliance with the City's Unified Development Code ("UDC"), has a plat, approved by the Planning Commission on **September 20, 2023** to develop a tract of land, to wit: approximately **24.61** acres known as **King's Landing Unit 10 subdivision located north of Lady Claudia Street and west of London Pirate Road**, as shown in the attached **Exhibit 1**, the content of such exhibit being incorporated by reference into this Agreement;

**WHEREAS**, under the UDC, the Developer/Owner is responsible for construction of the Arterial Transmission and Grid main extension ("Water Improvements");

**WHEREAS**, under the UDC, the Developer/Owner is eligible for reimbursement of the Developer/Owner's costs for the construction of Water Improvements;

**WHEREAS**, it is in the best interests of the City to have the Water Improvements be constructed to its ultimate capacity under the City's applicable Master Plan;

**WHEREAS**, Section 8.5.1.C. of the UDC authorizes the acceptance of applications to be eligible for reimbursement in the future when certain funds become fully available in the Arterial Transmission and Grid Main Line Trust Fund and are appropriated by the City Council; and

**WHEREAS**, Developer/Owner has submitted an application for reimbursement of the costs of extending Water Improvements as shown in **Exhibit 2**, the content of such exhibit being incorporated by reference into this Agreement.

**WHEREAS**, the Water Arterial Transmission and Grid Main Trust Fund does not currently have sufficient funds to fully reimburse Developer/Owner for Water Improvements; and

**WHEREAS**, Developer/Owner may be paid when assets of the Water Arterial Transmission and Grid Main Trust Fund are sufficient, authorized for such purpose, and Developer/Owner has priority per UDC §8.5.1. C.

**NOW, THEREFORE**, in consideration of the mutual promises and covenants contained in this Agreement, the parties do covenant and agree as follows:

### **1. TRUSTEE LIABILITY.**

- a. The City is executing this agreement as trustee of the Water Trust Fund pursuant to UDC §8.5. The City is acting as trustee to further its governmental functions of providing water and sewer service. Texas Constitution Article 11, Section 3 prohibits the City from becoming a subscriber to the capital of any private corporation or association, or make any appropriation or donation to the same, or in anywise loan its credit. As such, the City's participation as Trustee does not create a loan of its credit. Execution of this agreement constitutes a promise to pay only to the extent that the assets and future

assets of the trust are sufficient for such purpose and it is expressly agreed that any judgment will only be satisfied out of the assets of the trust and not out of the City's assets. The City is excluded from personal liability.

- b. The Water Arterial Transmission and Grid Main Trust Fund was established by Ordinance No. 17092 to encouraging the orderly development of subdivisions within and surrounding the City of Corpus Christi, Texas and continues pursuant Texas Local Government Code §395.001(4)(C). The revenue generated for funding and continuation of the Water Arterial Transmission and Grid Main Trust Fund is subject to legislation of the State of Texas and the City of Corpus Christi. Nothing in this agreement guarantees neither the continuation nor future revenues of the Water Arterial Transmission and Grid Main Trust Fund. The City is not liable for modification or termination of the Water Arterial Transmission and Grid Main Trust Fund. The Developer/Owner agrees that any modification or termination of the Water Arterial Transmission and Grid Main Trust Fund is a legislative action and does not constitute a breach of trust, an act of bad faith, an intentional or reckless indifference to the interest of a beneficiary, or a profit derived by the trustee from a breach of trust.

## 2. PLANS AND SPECIFICATIONS

- a. - (1) 0'-0" Min to 5'-2" Max. Estimated curb heights are shown elsewhere in the plans. For structures with pedestrian rail or curbs taller than 3'-0", refer to the extended Curb rail to the Reinforcing Curb (RAC) standard sheet for structures with bridge rail other than T631 or T631LS.
- (2) For vehicle safety, the following requirements must be met:
- For structures without bridge rail, construct curbs no more than 3" above finished grade.
  - For structures with bridge rail, construct curbs flush with finished grade. Reinforcement required to reduce rail contact force (flush with finished grade) will be made in castings and no additional compensation will be allowed for this work.
- (3) For curbs less than 3' high, cut Bars K or reduce bar height as necessary to maintain cover. For curbs 3' high or greater, Bars K may be omitted.
- (4) 1'-0" typical, 2'-3" when the Rail Anchorage Curb (RAC) standard sheet is referred to elsewhere in the plans.

### TYPICAL SECTION

### PART PLANS

### CONSTRUCTION NOTES:

**DO NOT USE PERMANENT TURNS:**  
Occasionally it is necessary to turn a culvert 90° at the end of a run. If this option is taken, Bars M may be cut off or raised, Bars C and D may be reversed, and Bars Y and Z may be reversed.

### MATERIAL NOTES:

Provide Grade 60 reinforcing steel.  
Provide Class C concrete f'c = 3,600 psi for culvert barrel and curb.  
Provide bar laps, where required, #6 @ 2'-1" Min.  
• Uncracked or galvanized ~ #6 = 2'-7" Min  
• Cracked or galvanized ~ #6 = 2'-6" Min  
**GENERAL NOTES:**  
Designed according to AASHTO LRFD Bridge Design Specifications for the range of fill heights shown.  
See the Multiple Box Culverts Cast-in-Place Miscellaneous Detail (MC-ID) standard sheet for details pertaining to skewed ends, angle sections, and lengthening.

Cover dimensions are clear dimensions, unless noted otherwise.  
Reinforcing bar dimensions shown are out-to-out of bar.
