

Northwest Blvd Wastewater Infrastructure Upgrade

Council Presentation
August 20, 2024

Project Location

Project Scope

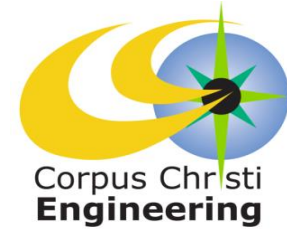

A brief summary of proposed scope is as follows:

- Complete a Preliminary Engineering Report.
- Project will review existing wastewater infrastructure and provide upgrades within the Allison Wastewater Treatment Services Area along FM 624.
- Design for new infrastructure to extend wastewater service along FM 624 to the city limits.

Project Schedule

2024 - 2025						
A	S	O	N	D	J	F
Design						

Projected Schedule reflects City Council award in August 2024 with anticipated ELR completion in February 2025.
