

Far Field Advisory Committee

Brett Van Hazel, P.E.

Director Water Supply Management, Corpus Christi Water

December 16, 2025

Far Field Advisory Committee

- The purpose of the Committee is to provide input and to ensure a collaborative and transparent analysis and interpretation of the Far Field Model process
- Form a diverse volunteer committee composed of local community members and subject matter experts
 - CCW requested Council input on the Committee formation and recommendations of potential Committee stakeholders
- City staff is evaluating potential facilitators to support this work and ensure goal-focused, productive meetings.
- City staff has engaged Plummer Associates, Inc. to develop the far field model scope and provide owner representative technical support throughout the process.
