Approving agreement and appropriating funds to reimburse developer for the construction of water arterial transmission and grid main line located south along Holly Road, east of Rodd Field Road and west of Paul Jones Avenue

CAPTION:

Ordinance authorizing city manager or designee to execute a water arterial transmission and grid main construction and reimbursement agreement ("Agreement") with MPM Development, LP ("Developer"), for the construction of a water arterial transmission and grid main line and appropriating \$49,980.11 from the No. 4030 Arterial Transmission and Grid Main Trust Fund to reimburse the Developer in accordance with the Agreement.

PURPOSE:

MPM Development, LP, is required to install 474 linear feet of 12-inch water arterial grid main extension in order to provide adequate water to a proposed residential subdivision development. The site is located south along Holly Road, east of Rodd Field Road and west of Paul Jones Avenue.

BACKGROUND AND FINDINGS:

Per Section 8.5.1.C (1) Credits and Reimbursements of the Unified Development Code ("UDC"), MPM Development, LP, is requesting a Reimbursement Agreement for the development of Parkview Unit 1 as shown on the final plat. The subdivision is located south along Holly Road, east of Rodd Field Road and west of Paul Jones Avenue. The development requires the extension of 474 linear feet of 12-inch water arterial grid main in order to provide adequate water to the property. A layout of existing and proposed improvements is included as Exhibit 3. The 12-inch waterline is eligible for full reimbursement from the Water Arterial Transmission and Grid Main Trust Fund.

The Water Master Plan calls for the construction of a 12-inch water arterial grid main south of Holly Road. If the actual costs for installation of such arterial transmission and

mains are greater than the lot or acreage fee, the developer shall be reimbursed (less any lot or acreage fee credits) from funds available from the Water Arterial Transmission and Grid Main Trust Fund for that portion of the arterial transmission and grid main installed by the developer. In this case, the total construction cost of the 12-inch water arterial grid main is \$60,718.11 minus the lot/acreage fee of \$10,738.00 which equals \$49,980.11.

ALTERNATIVES:

Disapproval of the Reimbursement Agreement.

OTHER CONSIDERATIONS:

None

CONFORMITY TO CITY POLICY:

The developer will be extending a water grid main to serve the proposed residential development and has requested a Reimbursement Agreement, as provided in the Unified Development Code.

EMERGENCY / NON-EMERGENCY:

Non-emergency
