Project Name: FY24 Police Department Upfitting of Vehicles

Project Address: 5002 Logans Run, Harlingen, TX 78550

1.1 **General Requirements/Background Information**

The Contractor shall provide upfitting services for 31 Police vehicles. Upfitting is the term used to describe the installation of accessories and equipment customized for police-marked units.

1.2 **Scope of Work**

- A. The contractor shall provide upfitting services to include, but not limited to, accessories and equipment such as lights, full compartment partitions, sirens, push bumpers, and center console keyboard mounting plates.
- B. The contractor shall supply and install upfitting accessories and equipment (kits) for the use in the following vehicles:
 - a. (30) 2024 F150 Police Responder Patrol Units
 - b. (1) 2024 Chevrolet Tahoe PPV K9 Unit.
- C. Installation of the upfitting kits will be performed offsite in accordance with applicable, current, and recognized standards.
- D. The Contractor shall not perform any upfitting on City property.
- E. City staff will provide for the delivery and return of all vehicles selected for upfitting.
- F. Vehicle upfitting will begin once the City's Contract Administrator has been notified via email that the Contractor is in receipt of the vehicle, equipment, and all accessories needed for the vehicle. (If vehicles have been delivered to the Contractor in a group, the Contractor may choose to send a single notification email for the group received, listing each vehicle by VIN, or may send a single email per vehicle by VIN.) Each notification email from the Contractor must include a copy of the Contractor's invoice from their parts/equipment supplier(s) as confirmation that the items to be installed have been received by the Contractor. Upon notification to the City, the Contractor shall complete the upfitting of each vehicle identified in the notification email within seven business days.
- G. The Contractor's minimum completion objective pursuant to the agreement is five vehicles per week. If additional time is required due to unforeseen circumstances (e.g., damaged parts, faulty equipment, or other non-vendor delays, etc.), the Contractor must communicate via email with the City's Contract Administrator to discuss an allowable extension to the timeframe

and must mutually agree upon an alternate completion date. Each final confirmation email sent by the Contractor must identify the vehicle, or vehicles, affected by the vehicle VIN and include the revised completion date.

- H. The Contractor acknowledges and understands that, by entering into an agreement with the City, the City requires timely performance of the completion schedule for the upfitting of law enforcement vehicles, such timeliness being vitally important to the City as a direct matter affecting public safety and the City's operational readiness. In the event the Contractor is unable to finish upfitting a vehicle within the prescribed seven business days after upfitting has commenced under F. above or, when applicable, by the expiration date of the agreed-upon alternate completion date under G. above, the Contractor shall provide a 5% discount off the total dollar amount of the applicable vehicle's invoice (or, if a group of vehicles are similarly affected, the vehicles' invoice) due to the delay.
