None of the above

Question applies to TRANSPORTATION ADVISORY COMMISSION

Per city ordinance, at least one member of this commission shall represent the bicycling community. Do you qualify for this category?

Yes No

Richard W. Bailey

Objective Seeking a challenging position that will continue to utilize my skills, experience and education in the area of Continuous Improvement, Lean Manufacturing and Supply Chain Logistics.

Experience (2003 - Present) DuPont
Lean Six Sigma Green Belt, Lean Practitioner, Production System Black Belt- Certified Facilitator-

- Successful implementation of a Lean Production System as a Production System Expert. ***The DuPont Production System is an integrated system designed to deploy best practices, develop people and organizational capability, and find creative new ways to utilize assets and eliminate waste. Its scope is to "make and deliver" at all DuPont owned/operated manufacturing units. The system is focused on safely serving customers, understanding and outperforming competition, and fully engaging everyone in continuous improvement. It parallels the Toyota Production system in concept and purpose.***
- Implementation included a diagnostics phase, which identified \$14.2 million of potential improvement projects and was achieved over a 2 year period.
- Successfully implemented TRACC best practices at the Corpus Christi site using lean six sigma tools. ***TRACC is an Enhancement Toolset for Lean Production System execution.***
- Personally led several Black Belt and Kaizen projects which delivered over \$1.8 million in hard savings.
- Facilitated (part of 3 man team) over 20,000 man hours of training.
- Coached and trained site leadership New Mindsets and Behaviors concepts of a Lean Production System.

(1997 - 2007)
Supply Chain Logistics Team Lead -

- Managed the Shipping and Logistics Department.
- Responsible for reporting site inventory accuracy metrics to corporate Business Managers.
- Site Manufacturing Lead (SME) "Subject Matter Expert" for its Enterprise System "SAP". Functional member of the SAP implementation team from design through "go live".
- Corporation Fleet Manager for more than 500 units of mobile equipment. (tanker cars, trailers, ISO containers)
- Responsible for Manufacturing Sarbanes Oxley Reporting.

- Responsible for the Production Accounting Group.
- Working knowledge of Industrial manufacturing processes, process technology and/or product development. 10 years experience as a manufacturing supervisor on shift rotation. 2 years experience as a project supervisor on \$100 million project.
- Certified in D.O.T regulatory compliance

Education

- (1998 – 2006) Texas A& M University Corpus Christi, Texas
- M.B.A. 2006
 - B.B.A. Information Systems Applications 2002
 - Studied and toured the New York Financial Markets in 2005
 - Performed regression analysis to support a Financial Publication (not published) concerning Mutual Fund Activity in 2006
 - Advanced Excel, Access Database, SAP R2/R3, knowledge/training
 - Top of my class in Strategy Analysis (Personal Analysis of The Symantec Corporation)
 - Offered opportunity to present co-authored paper at University Conference in Las Vegas Nevada. 2006

Interests

Ballroom Dancing, football, baseball, fishing and golf

Civic Involvement

City Code Requirement - Residency

As a board, commission, or committee member, you will be asked to adhere to City Code of Ordinances, Section 2-65, which states that all members of City boards and commissions, including ad hoc committees, appointed by the City, must be residents of the city. A move outside the city limits of the city by any member shall constitute automatic resignation from the particular board or commission on which such member served.

I Agree

City Code Requirement - Attendance

As a board, commission, or committee member, you will be asked to adhere to City Code of Ordinances, Section 2-61, which provides that absences from more than 25% of regularly scheduled meetings during a term year on the part of any board, commission, or committee member shall result in an automatic termination. An absence shall be deemed unexcused unless excused by the board, commission or committee for good cause no later than its next meeting after the absence.

I Agree

Consent for Release of Information

I understand that if any member of the public makes a request for information included in this application for appointment it must be disclosed under the Public Information Act. I also understand that it may not be legally possible to maintain the confidentiality of such information, and I hereby release the City of Corpus Christi, and its agents, employees and officers, from any and all liability whatsoever if the information must be released pursuant to the Public Information Act.

EXPERINCE:

May 2009 – Present Registered Principle/Owner – Freedom Investment Counsel LLC

Established my own independent financial advisory practice to continue performing duties and responsibilities similar to those performed while employed in the financial services industry described below.

Apr 1997- May 2009 Financial Advisor & Investment Management Consultant
UBS PaineWebber, Corpus Christi, TX

Developed new client relationships. Serviced clients in the areas of personal financial plans, employer sponsored retirement plans, securities and insurance sales. Supervised customer service and support staff. Achieved advanced professional designation as an Investment Management Consultant. Developed and maintained a personal business plan. Managed investment strategies in over 200 client relationships working to educate and assist clients in the investment decision making process. Daily activities include financial planning, investment performance analysis, marketing plan implementation, substantial client contact and frequent coordination with outside vendors or product managers. Assisted with new employee selection and training. Grew capital responsibility and personal production for six consecutive years. Current capital responsibility \$30,000,000+. Trailing 12 month production \$215,000. Awarded special corporate recognition in 1998 for qualifying in the top 10% of peer group for new accounts and new assets under management.

Nov 1995-Apr 1997 Account Executive, Dean Witter, Corpus Christi, TX

New client development, securities sales and marketing. (See above)

Jul 1994-Jan 1997 Air Carrier Pilot, Part 135 Operations, Aero Pak, San Antonio, TX

Pilot for an overnight air freight operator.

Aug 1991-Jul 1994 Aviation Division Chief, Fifth U.S. Army, Ft. Sam Houston, TX

Supervised a 5-person management evaluation team validating aviation organization's training, safety, standardization and maintenance programs in an eight-state area. Inspected compliance with established regulations and policies. Insured internal controls and budget expenditure reporting procedures. Participated in formulation of policy and operational plans. Provided oversight and inspection

Jan 1991-Aug 1991 Executive Officer, 4th BN 228th Aviation Regt., Soto Cano AB, Honduras

Supervised a management team responsible for aviation operations in 5 Central American countries with 30 helicopters and 300 employees. Developed a goal oriented aviation maintenance management program, improving aircraft availability rates by over 10% allowing increased operating tempo. Developed and implemented organizational structure changes to enhance aviation support in Central America.

Jan 1990-Jan 1991 Aviation Operations Officer, U.S. Army South, Ft. Clayton, Panama

Provided staff oversight and support of aviation operations for a major military headquarters during and after Operation Just Cause. Organized and conducted frequent formal decision briefings and informative presentations for senior executive leadership and high level political and government leaders. Selected principal escort officer for Secretary of the Army and U.S. Army Chief of Staff on two separate command visits. Utilized persuasive skills in the corporate decision process.

Feb 1986-Jan 1990 Inspector General, Headquarters USAG, Ft. Sam Houston, TX

Personal advisor to the chief executive officer of a major military installation. Responsible for formulation and interpretation of policies and regulations. Established a systematic inspection program to insure compliance with prescribed operating procedures. Received, evaluated and recommended action on special issues raised by employees and customers. Identified, analyzed and developed solutions for systemic problems related to the efficient management of a major military community with an annual budget in excess of \$20 million. Supervised 5 staff specialists.

Computer skills and other Qualifications:

Microsoft Office Suite	NASD Series 7	Series 65
Windows NT	Series 63	Series 31
MS Word	ACT Contact Management data base	Investment Management Consultant
MS Excel	MS PowerPoint	Internet savvy
Group one life & annuity insurance license		

Education:

Graduated Calallen Highschool 1969, BS in Political Science & History ED, Texas A & I University, Distinguished Military Graduate; Army Command and General Staff College (graduate level). Investment Management Consultant program UBS PaineWebber.

Background

John has over 25 years of experience in all phases of design and construction. John previously worked for Hensel Phelps Construction Company in their general contracting, program management and international divisions, and is currently working for Lockwood, Andrews & Newnam, Inc. in their infrastructure water conveyance group and previously with their architectural aviation group.

John's experience includes architectural and civil engineering, construction phase services, resident engineer/architect, program management, resident construction manager, inspection, consultant City project manager in construction branch of public works department, and cost estimating on a wide variety of projects, and contract types, ranging from lump sum and unit price, competitive sealed proposals, conceptual estimating, to a CMAR cost plus fixed fee with a guaranteed maximum price. Projects have ranged up to a \$300M design-build fast-track 24/7 complex high-tech project.

John has a proven proactive management approach to completing projects on time, within budget and in accordance with the contract documents, from NTP to testing, startup, commissioning and project closeout, with the proven ability to promptly respond and prepare or assist with solutions to unforeseen and differing conditions, including the timely, fair and judicious use of work change directives that avoid or minimize time and cost impacts.

John maintains constant and timely communication with clients and their operation and maintenance staff, and effectively coordinates with the design team, contractor, inspectors, testing labs, permitting agencies, general public, public officials, tenants, management districts, private utility owners, manufacturers, suppliers, and other stakeholders.

John has developed and implemented management information systems for various programs and projects, and has assisted clients with updating or creating management process manuals, document control systems, general conditions and general requirements.

John has extensive constructability review experience, and value engineering, cost estimating experience, including the development of a cost model for a 108-inch diameter waterline transmission program for estimating project costs when key variables are changed such as pipe diameters, pipe thickness, trench width, trench depth, types of backfill material, forecasted price of steel, assumed production rates for urban and rural locations, forecasted bid dates, etc.

John has successfully managed and assisted Clients with breach of contract terminations (ex., contractor non-performance, bankruptcies), including effectively working with the Client and Surety to retain an acceptable take-over contractor to complete the remaining work.

Aviation Projects

William P. Hobby Airport Central Concourse, Ticketing and Central Plant Upgrades – Houston Airport System, Houston, TX, \$77M (2000 – 2003):

John was the resident design representative for this program. The primary project in the program was the construction of a new 374,000 SF central concourse with 20 gates for Southwest Airlines, including a new ticketing facility, pedestrian connector

bridge and baggage handling and central plant facilities. The new facility was built primarily with cast-in-place concrete, structural steel, glass curtain walls, skylights, and standing seam metal roofs. The work included a utility tunnel, underground hydrant fueling system, fire suppression and fire alarm systems, MEP, telecommunication systems, security systems, elevators, moving walkways, baggage handling systems, central plant renovations that included 4 new chillers with variable speed drives, piping, pumps, electrical and SCADA upgrades, including installation of temporary chillers before existing could be demolished to make room for the new chillers.

John was responsible for coordinating with the owner, program manager, contractors, the Houston Airport System's managers and operators, various airlines and tenants, various inspectors, code enforcement, permitting, various design consultants, testing labs, contractors, etc. He provided on-site design support to clarify design issues, identify and resolve contractor deficiencies, facilitate solutions to unforeseen and differing conditions, including contractor deviations and deficiencies, and assist with various Client and Airline requested modifications to minimize cost and schedule impacts. John's responsibilities required multi-discipline coordination from civil, architectural, structural, environmental, electrical, mechanical, security, communications, elevators, and baggage handling in order to coordinate with design consultants, clients, airlines, end users, inspectors, testing labs, contractors, subcontractors, and code enforcement.

Mail Sort Facility and Police Dog Kennels at Bush Intercontinental Airport—Continental Airlines and City of Houston, Texas (1998-1999): John was a project manager in the program management division of Hensel Phelps Construction Co. providing program management services for the former Continental Airlines. He was responsible for managing the design team and the contractor and testing lab, which included conducting various meetings, pay estimates, RFIs, submittals, change orders, and managing the project schedule and costs. John successfully helped with a major design change that required shifting the entire facility and worked closely with design team, Continental Airlines, the Houston Airport System and City permitting department to expedite a solution that minimized the cost and schedule impacts.

Projects – Lockwood, Andrews & Newnam Nueces County Hazard Mitigation Action Plan (HMAP) – Multiple Jurisdictions, Nueces County, City of Corpus Christi, et al., TX (2017-current): Team member assisting with the research, data acquisition, analysis and writing of the HMAP, and successfully completed the Local Mitigation Planning Workshop conducted by the Texas Division of Emergency Management.

Ayers Street Pedestrian Improvements and Turn Lane Addition, from SPID to Gollihar, Bond 2014 – City of Corpus Christi, TX (2016 – current): Prepare the technical specifications and utility matrix, and perform constructability review. Project consisted of widening approximately 3,000 linear feet of Ayers Street from approximately SPID to Gollihar Road to accommodate the addition of a continuous center dual turn-lane, and provide pedestrian and drainage improvements.

Alameda Street – Lipan to Kinney, Bond 2014 – City of Corpus Christi, TX (2016-current): Provide construction phase services. The project consists of full-depth asphalt roadway reconstruction with curb and gutters, driveways, sidewalks, ADA curb ramps, pavement markings, signage, storm water drainage, and utility improvements.

Bulk Terminal Storm Water System Quality Improvements, Project 15-046A – Port of Corpus Christi, TX (2016-current): Prepare the technical specifications and perform constructability review. The project consists of restoring the capacity of the public storm water detention ponds, storm water infrastructure modifications to the existing storm water filtration system at the bulk terminal, including removing and replacing concrete channels, adding weirs, headwalls, retaining walls, slabs, weirs, ramps, storm pipes, and inlets, utility relocations, and pavement, curbs, site grading improvements.

Northeast Transmission Line Program (over 90 miles and over \$500M of large diameter waterlines up to 108-inch diameter) – City of Houston, TX (2015-current): Responsible for preparing a cost model for the program, TxDOT tunnel permit assistance, specification assistance, assistance with unique details, presenter on constructability issues at workshop hosted by the City, and performed constructability reviews on the following initial projects in the ongoing program.

- **WBS No. S-000900-0126-3 (Contract 99B-2), \$29.0M - 108-inch Water Line Along City Easements from Smith Rd. to Lee Rd.** – This project primarily consists of construction of 108-inch large diameter water transmission line, public utility adjustments, access road with a detention pond and construction of one (1) 42-inch and one (1) 54-inch Interconnection from the proposed 108-inch water line to existing 42-inch and 66-inch water lines, respectively. The proposed 108-inch water line will be tunneled under a TxDOT bridge, Union Pacific Railroad tracks, Harris County Flood Control District Channel and existing roadways.
- **WBS No. S-000900-0156-3 (Contract 99C-1), \$20.5M - 108-inch Water Line Lee Rd. to Vickery Dr.** – This Project primarily consists of constructing a 108-inch and 54-inch water transmission line, a 12-inch waterline, a 16-inch waterline, roadway reconstruction including drainage replacement along with sidewalk construction and replacement on

portions of Crosswinds Blvd. and Aeropark Dr. Construction of the proposed 108-inch water line includes connections to the other NETL “work around solution” projects: a proposed 108-inch water line and a proposed 54-inch water line (by others), and also includes various public utility adjustments.

- **WBS No. S-000900-0140-3 (Contract 99B-1) \$31.3M - 108-inch Water Line Along City Easements from East of Bellow Falls Ln to Smith Rd** – This Project primarily consists of construction of 108-inch large diameter water transmission line, public utility adjustments and one (1) 60-inch interconnection from the proposed 108-inch water line to the existing 84-inch water line.

Main Canal Siphon at IH-10 Slope Failure Repair – Coastal Water Authority, Baytown, TX (2016): Construction Manager responsible for construction management and inspection services on a critical slope failure repair to the raw water canal on the slope immediately above three 108-inch PCCP siphons crossing under Interstate Highway 10.

Surface Water System Improvements Program – City of Conroe, TX – Water Plants Project (2014-2016): Construction Manager responsible for construction management and inspection services for modifications to 6 existing ground water pump plants to accept surface water from the SJRA’s new surface water treatment plant, including 3 new natural gas emergency generators, construction of a new pump building with new pumps and chlorine system and new and refurbished pumps at 5 existing pump facilities, including new post chlorination systems, including associated electrical, SCADA and security modifications. Work is scheduled and sequenced in phases to avoid service disruptions.

Surface Water System Improvements Program – City of Conroe, TX – Water Distribution System Project (2015- 2016): Construction Manager responsible for construction management and inspection services on 4 new pressure reducing valve facilities, 4 new emergency service valve facilities, with new precast buildings for each facility, and 3 new small diameter waterlines, including chlorine analyzers, associated electrical, SCADA and security. Improvements are necessary to receive surface water from the SJRA’s new surface water treatment plant.

John developed and prepared an initial draft of proposed procedures and test report forms for disinfection and hydrostatic testing of waterlines which is still under review by the City.

Groundwater Reduction Program – San Jacinto River Authority, Montgomery County TX (subconsultant to KBR) – 60-inch & 54-inch Waterlines, Project T1, Project T2 & Project T3, and South Receiving Facility Project (2013-2015): Provided design phase constructability reviews, permitting

assistance, cost estimating, and committee member for the competitive sealed proposal selections.

John provided construction management and inspection services for 3 concurrent large diameter waterline projects totaling approximately 12 miles of 54-inch and 60-inch waterlines, including 25 tunnels crossing dam spillways, TxDOT highways, railroads, creeks, gas pipelines, golf cart tunnel, and numerous roads, including impressed current cathodic suppression systems and fiber optic conduits and pull boxes.

John also provided CM&I services on the south facility project concurrent with the waterline projects, which included various improvements at seven water plants consisting of new small diameter waterlines, new buildings, ground storage tank modifications, chlorine systems, control systems, electrical modifications, new emergency generator systems, and new water line pressure and flow control stations.

John developed and prepared the initial draft of proposed procedures and test report forms for disinfection and hydrostatic testing of all of the waterlines in the program that was ultimately edited and implemented.

Surface Water Transmission Program (SWTP) – City of Houston, TX (2000 - 2015): Since 1985, LAN has provided planning, design, Program Management and construction management and inspection services to convert from groundwater to surface water to reduce the effects of subsidence. The City’s \$400 million SWTP Program which has provided more than 250 miles of transmission and distribution mains up to 96-inches in diameter. As part of this program, LAN has managed, designed, coordinated more than 100 engineering design projects, including water system analysis and design, water treatment facility and pump station design, ground storage and well system design, open cut, tunneling, aerial pipe crossings, railroad crossings, waterline rehabilitation using trenchless technology, and the construction management and inspection for each project. The City of Houston estimates LAN’s involvement has saved \$40 million to date.

John has worked on many of these projects (including concurrent while managing other projects), providing services ranging from route analysis, site investigations, condition assessments, constructability reviews, cost estimates, cost models, specification preparation, permitting, construction phase services, butterfly valve witness testing, with the majority being construction management and inspection services. Some of these projects also included improvements and additions to numerous water plant pump stations, pressure reducing valve stations, air relieve valve rehabilitation, and other facilities. All of these projects typically included public and private utility relocates, drainage modifications, concrete and asphalt pavement removal and replacement, tunnels, aerial crossings, impressed current cathodic protection

systems, disinfection and hydrostatic testing, interconnections, etc. See partial list of projects and services listed below.

Staff Augmentation Project Management Services, Construction Branch, Public Works City of Houston, TX (2004-2006): John was a project manager responsible for LAN's staff physically located in the Public Works building augmenting the City's construction project managers. John was responsible for managing multiple projects in various stages of construction as an acting City Project Manager. As an acting City Project Manager John was responsible for directly managing projects as well as managing projects managed by other consultant construction managers. John also assisted the City with various other tasks and services such as perform constructability reviews on numerous projects, participate on committees to improve existing and add new modules in the City's web based construction management system called CIPMS, perform independent peer review of claims and disputed issues for other City PMs, worked with the City's Construction Branch senior assistant director, supervising engineer, and the City attorney in preparing and executing the first ever debarment of two contractors and their key principals by the Public Works Department. John's responsibilities also included coordinating with various City departments, North Harris County Regional Water Authority, permitting department, City surveyors, City utility maintenance, City plant operators, the City's geo-environmental group, various design and construction management consultants, laboratories, TxDOT, Harris County, private utilities, Harris County Flood Control District, various management districts, Sureties, City Legal, City Real Estate, Council Members, the public and various other stakeholders.

The following is a brief list of some of the SWTP projects John worked on and his role (see footnote for John's roles).

- (1) City PM – Staff Augmentation
- (2) LAN Design Phase Services
- (3) LAN CPS Services
- (4) LAN CM Services

* Independent peer review of major \$1M+ claim only

- Water Main Replacement Near Northside (1*) (GFS# S-0035-NN-3) \$2.6M (2002-2003)
- 36" WL along Beamer from Dixie Farm Rd to Bay Area Blvd (1) (GFS# S-0900-78-3) \$6.1M (2002-2004)
- 30" WL along Briar Forest... and Jersey Village Pump Sta. (1) (GFS# S-0900-52-3) \$6.5M (2003-2004)
- 60" WL along Dolly Wright, Dubois and Victory (1) (GFS# S-0900-59-3) \$3.4M (2001-2002)
- 54" WL along Tidwell, from Hollister to Old Hempstead (1) (GFS# S-0900-62-3) \$3.9M (2001-2003)
- 54" WL along Ella Blvd, from W. 24th to West 43 Street (1) (GFS# S-0900-68-3) \$4.3M (2002-2003)
- WL Grid Extension Pkg 1 – various locations (1) (GFS# S-0700-56-3) \$1.0M (2003-2004)
- Watermain replacement in Bennington (1)

- (GFS# S-0035-A3-3) \$1.6M (2005-2005)
- 36" WL along Hillcroft, Holly, Dunlap & N. Braeswood (1, 4) (GFS# S-0900-89-3) \$5.3M (2004-2005)
- Rehabilitation of Air Relief Valve Package #1 (1, 4) (GFS# S-0701-02-3) \$3.9M (2004-2005)
- (71A - Greenspoint) 66" WL along World Houston... (1, 4) (S-0900-99-3) \$13.4M (2005-2005)
- (71B - Greenspoint) 66" WL along Aldine-Westfield... (1, 4) (S-0900-A1-3) \$11.7M (2005-2005)
- (71C - Greenspoint) 66" WL along Old Greens...(1, 4) (GFS# S-0900-A2-3) \$7.7M (2005-2006)
- (71D - Greenspoint) 66" WL along Green Rd...(1, 4) (GFS# S-0900-A3-3) \$8.9M (2005-2006)
- (Greenspoint) 12", 16" & 20" WL Service Upgrades and Grid Extensions in the Greenspoint area (1, 4)
- (GFS# S-0900-A4-3) \$1.3M (2005-2006)
- Slipline of existing 42" WL with 36" HDPE from Holmes Rd., to Sims Bayou Pump Station (1, 4) (GFS# S-0900-A8-3) \$8.2M (2005-2005)
- Katy Addicks Pump Station and Spring Branch Pump Station Improvements (1, 2, 3, 4) (GFS# S-0900-83-3) \$1.8M (2004-2005)
- 48" WL and 20 & 24" well collection lines along N. Dairy Ashford, Old Katy Rd, Well Site No. 2 (1, 2, 3, 4) (GFS# S-0900-84-3) \$4.9M (2004-2005)
- 36" WL along Westview & Wisterwood...(1, 4) (GFS# S-0900-85-3) \$4.4M (2004-2005)
- 42" WL along Scenic Ridge Dr, Oak Spring Dr., Timberline Rd., Brittmore Rd... from Katy Addicks Pump Sta. (1, 4) (GFS# S-0900-86-3) \$4.0M (2004-2005)
- 48" WL & 30" Well Collection Line along Wickchester, Moorwick, Wickhollow...(1, 4) (GFS# S-0900-87-3) \$4.2M (2004-2005)
- 24" WL along State HWY 6 from Bakers Point Lane to Grisby St. and Conrad Sauer Pig Launching/Receiving Facility (1) (GFS# S-0900-96-3) \$1.1M (2005-2005)
- 36" WL along N. Eldridge, from IH10 to Sandbridge (1, 4) (GFS# S-0900-97-3) \$4.3 (2004-2005)
- PRV Station Improvements Package 2 (1) (GFS# S-0900-79-3) \$1.8M (2003-2004)
- PRV Station Improvements Package 3 (1) (GFS# S-0900-A7-3) \$1.5M (2006-2007)
- On-Call Water Main & Sanitary Sewer Pkg 1 (1) (GFS# S-0801-P4-3) \$1.5M (2004-2006)
- On-Call Package #4 Large Dia. Waterlines (1, 2, 3, 4) (GFS# S-0701-01-3) \$2.6M (2004-2006)
- 24" WL along Post Oak Blvd from Westheimer to IH610 (1, 4) (GFS# S-0521-19-3) \$3.5M (2005-2005)
- On-Call Package #3 Large Dia. Waterlines (2, 3, 4) (GFS# S-0701-01-3) \$2.7M (2004-2006)
- 12" WL along Post Oak, from Richmond to Westheimer (1, 4) (GFS# S-0521-15-3) \$1.4M (2005-2006)
- 48" WL along Alameda from N. MacGregor to Holcombe Blvd, and along Holcombe Blvd. from Alameda to Cambridge (1, 4)

- 54" WL along Dolly Wright from W. Montgomery to Acres Home Pump Station, and Pump Sta. Improvements (1) (GFS# S-0900-A9-3) \$4.6M (2006-2006)
- 42" WL along Tidewater, South Post Oak, W. Orem, Croquet from Candleshade to Sims Bayou Pump Station (3, 4) (GFS# S-0900-B7-4) \$8.5M (2010-2011)

Greenspoint Water Line Program, Construction Management and Inspection Services – City of Houston, Houston, TX:

John was initially the consultant Project Manager for construction management and inspection team and subsequently the acting City PM of 45,000 LF of 66-inch transmission mains and 5,000 LF of 8- and 12-inch distribution lines on a fast-track schedule to meet an EPA mandate. Due to the EPA's deadline, it was necessary to take a proactive approach to design and construction of this project. This program required extensive coordination with numerous high profile stakeholders, significant traffic management efforts, several critical tunnels, significant utility relocations, and pavement removal and replacement. The project was completed on time, in 18 months, and under budget by \$2.3 million.

Almeda Sims Sludge Processing Facility, City of Houston, Houston, TX – \$38M including dryer equipment (2006 – 2009):

John was the construction manager for the new sludge processing facility that consisted of new metal building to house the 2 new dryer units, 2 new belt filter presses, 1 remanufactured belt filter press, 3 refurbished belt filter presses, polymer feed system, sludge feed system, sludge day tanks with aeration system, cake conveyance system, water booster pump system, HVAC, plumbing, electrical, fire suppression and alarm system, SCADA, control room, offices, elevators, and a new truck load out building and 2 concrete silos, truck scales, stair tower, and a new TWAS pump station and new NPW pump station. The project encountered numerous significant unforeseen and differing conditions, acts of god, contractor deficiencies, and design modifications, including significant unforeseen contaminated soils, delays due to hurricane. John successfully utilized and issued numerous work change directives that helped to minimize the cost and schedule impacts associated with these various challenges.

HVAC Improvements at Electrical Buildings at the Water Treatment Plant and Industrial Pump Station – Gulf Coast Water Authority, Texas City, TX – \$295k (2012 – 2012):

John took the lead at the 90% design stage to assist the EOR in splitting out the contract documents into alternate bid, prepare the front end documents, and assist with advertising, bidding and award. John also provided construction phase services and was the construction manager. The project required the replacement of the existing HVAC equipment in the electrical buildings at the water treatment plant and the industrial pump station which provides raw water to numerous petrochemical refineries. The work was successfully scheduled, sequenced

and managed to avoid service disruptions to the public and refineries.

New Flow Meters, Vaults, Radio Antennas and Solar Panel Systems for Various Raw Waterlines – Gulf Coast Water Authority, Texas City, TX – \$916k (2013 – 2013):

John took the lead at the 90% design stage to assist the EOR in completing the design for multiple proposed flow meters, vaults and radio/solar power systems on existing raw water lines servicing multiple petro chemical refineries. The vaults were located inside and outside of the refineries. John coordinated closely with the refineries to perform extensive SUE investigation to locate the various buried gas pipelines, utilities and raw waterlines to determine where the proposed flow meter vaults could be safely located, as well as coordinate with the local electrical company to determine where the proposed precast concrete utility poles for the radio antennas and solar panels could be located so they wouldn't conflict with the numerous overhead power lines.

Kimberly Drainage Project - TIRZ 17, Houston, TX: John was the construction manager on this project located in the highly urbanized Memorial City Mall area, which consisted of slip lining a 54" sanitary sewer, installation of a temporary by-pass system, installation of dual reinforced concrete box culverts, new waterlines, new signalized street lights, new concrete pavement, concrete pavers, sidewalks, handicap ramps, driveways, decorative street lights, and landscaping.

Projects – Hensel Phelps Construction Co.

International and Special Projects; San Jose, California (1997-1998): John was part of the corporate team selected to begin a new division to pursue international and special projects. His responsibilities varied from estimating (hard bid and conceptual) to developing new systems, forms, and procedures to overseas site visits to meet with potential clients, local officials, business leaders, contractors, and architects.

Engineering School, MP Training Facility, Chemical Defense Training Facility, Museum, Barracks, Dining Halls, Soccer Fields, and Officer Housing—US Army Corps of Engineers, Fort Leonard Wood, Missouri (1996-1997): As Senior Project Engineer, John provided guidance to four project engineers and was responsible for setting up the contractor's management systems for all the projects. John was directly responsible for the engineering school, officer housing and soccer fields which included management of contractor's staff, laborers, equipment and materials, as well as managing the subcontractors and suppliers.

Barracks, Dining Halls, Central Plant, Roads, and Utilities—US Army Corps of Engineers, Fort Huachuca, Arizona (1992-1993): John was a field engineer responsible for performing the engineering, drawings, surveying, and construction layout and verification for the civil portion of the project. His responsibilities required reviewing the contract drawings and

specifications, as well as the product data, shop drawings, and field conditions in order to develop construction layout drawings which included all components necessary to comply with the contract documents. John also managed the geotechnical testing lab, all heavy and light construction equipment, material suppliers, and a 10-man crew of operators and laborers for all civil work.

Semiconductor Facility Program—Samsung Corporation, Austin, TX (1995-1996): John had dual responsibilities as a member of the construction management team, and as a member of the contractor team constructing the main semiconductor building. John was the senior project engineer responsible for setting up the management information systems for the design-build fast-track \$330M program for the construction management team and coordinated with the client, design team, and contractors. Contractor team responsibilities included management of staff, laborers, equipment, and materials, as well as managing the subcontractors and suppliers. John also conducted progress meetings, pay estimates, RFIs, submittals, change orders, and managed project schedule and costs.

Wastewater Treatment Plant—US Army Corps of Engineers, Holloman, New Mexico (1996): John was brought in to perform a complete audit of the contractor's and independent testing lab's daily reports, inspection records, and test reports to determine if all contractually required testing was performed. The audit was due to a government investigation as a result of allegations made by a disgruntled former employee. John's detailed extensive audit determined that some tests were inadvertently not performed, but there was no willful intention to save money or cut corners by not performing the tests. The contractor proposed corrective fixes for the tests that were not performed. The government investigation agreed with John's findings and with the contractor's proposed fixes.

South Oak Cliff Line Segment 1 and West Oak Cliff Line Segment 1—Dallas Area Rapid Transit (DART), Dallas, TX (1994-1995): John was the project engineer on a new light rail system, including train stations. His responsibilities included management of contractor's staff, laborers, equipment and materials, and subcontractors and suppliers. John also worked closely with the bonding company for the specialty light rail subcontractor to complete the projects.

Light Rail-Service and Inspection Facility—DART, Dallas, Texas (1993-1994): John was the chief field engineer on a large complex service and inspection facility. He was responsible for managing the field engineering staff to perform the engineering, drawings, surveying, and construction layout and verification. John's responsibilities required reviewing the contract drawings and specifications, as well as the product data, shop drawings, and field conditions to correlate the various design disciplines in order to develop a consolidated set

of construction layout drawings which included all components necessary to complete the work such as the numerous complicated pits for the various equipment that would service the trains, erect the various structural steel buildings, layout the complex rail tracks in the rail yard, the various utilities, driveways, parking lots, etc.

Research Asst. & Internship – Grad. School University of Texas, College of Civil Engineering and Construction Industry Institute (CII), Austin, TX (1990-1991): While a graduate student in the Construction Engineering & Project Management program in the College of Civil Engineering, John was a graduate research assistant to the director of the program (Dr. Richard Tucker, P.E.) who was also the director of the CII. One notable project John assisted with while working at CII was researching and drafting the introduction and several chapters for the CII director, and reviewing/editing the remaining chapters prepared by professors from other universities, and compiling, formatting and preparing the TOC, chapters, exhibits, appendices and index for a publication funded by the National Science Foundation on the Japanese construction industry.

This work and research led to a graduate student internship opportunity with one of the largest Japanese full-service engineering, land development, and construction companies, the Taisei Corporation, in their Research & Development Division located in their corporate headquarters in Tokyo, Japan. John worked directly with their engineering researchers and scientists on the various construction methods and materials they were researching and developing. This research also included numerous site visits to various active construction project sites around Japan, ranging from several mid-rise office and residential buildings, to a highway tunnel project crossing under a bay constructed of precast concrete box segments, to several mega airport projects including the expansion/renovation of the Haneda Airport, and construction of the manmade island and connector bridge in Osaka Bay for the totally new Kansai International Airport. This research also included touring the research and development facilities of not only Taisei, but also the facilities of one of their major competitors, the Kajima Corporation, where new methods and materials were tested and developed.

Projects – Carpenter's Helper Residential and Small Commercial Projects, Various Clients, Corpus Christi, TX (1975-1988): John worked on various residential and small commercial projects as a carpenter's helper and estimator on weekends and summer breaks starting in seventh grade and through college. Projects were primarily small private residential additions and remodels, with a few small office renovations, dentist office renovation, renovation of several low income government housing units, and volunteer work to build various shelters and structures for a Boy Scout camp.

City Code Requirement - Residency

As a board, commission, or committee member, you will be asked to adhere to City Code of Ordinances, Section 2-65, which states that all members of City boards and commissions, including ad hoc committees, appointed by the City, must be residents of the city. A move outside the city limits of the city by any member shall constitute automatic resignation from the particular board or commission on which such member served.

I Agree

Consent for Release of Information

I understand that if any member of the public makes a request for information included in this application for appointment it must be disclosed under the Public Information Act. I also understand that it may not be legally possible to maintain the confidentiality of such information, and I hereby release the City of Corpus Christi, and its agents, employees and officers, from any and all liability whatsoever if the information must be released pursuant to the Public Information Act.

I Agree

Oath

I swear that all of the statements included in my application and attached documents, if any, are true and correct.

I Agree

Code of Ethics - Rules of Conduct/Conflicts of Interest

Do you represent any person or organization in any claim or lawsuit or proceeding involving the City?

Yes No

Do you, your spouse, your business or your spouse's business have a City contract?

Yes No

Does your employer or your spouse's employer have a City contract?

Yes No

Are you involved with any activities or employment that would conflict with the official duties on the City boards for which you are applying?

Yes No

Are you, your spouse, your business or your spouse's business involved in any pending bid, proposal or negotiation in connection with a contract with the City?

Yes No

Do you or your spouse have a pending claim, lawsuit or proceeding against the City?

Yes No

If you answer "Yes" to any of the questions above, please explain or ask to speak with the City's Legal Department.

Board-specific questions (if applicable)

James A. Morgan, SPHR, CPA

Objective: To obtain a position within a responsible and growing organization, where I can contribute to improving organizational performance utilizing my accumulated human resources, financial and business management expertise.

Profile: Human Resources: Employee Relations, HR Development and Training, HR Strategic Management, Comp and Benefits, Change Management, Workforce Planning and Employment, Recruiting/Staffing, Payroll, Risk Management. Software: ADP Payroll/HR Perspective HRIS, ABD HRIS, Dataforce HRIS, OrgPlus, EthicsPoint, Essential Learning.

Profile: Financial & Organization Management: IT, Insurance, Controllership, Financial Systems, Mergers and Acquisitions, Budgeting, Treasury, Auditing, Cost Analysis, Project Management, General Ledger, Monthly Closings, Operations Analysis, Organizational Development, Operations and Improvement. Software: Oracle, QuickBooks, Peachtree, MS Office.

Professional Experience:

Corpus Christi Housing Authority

Sr. Vice President for Human Resources, IT and Insurance: (October 2012-Present) – Directs the Human Resources, IT and Insurance functions for the housing authority (HA) operating in thirteen separate locations, serving 9,000 residents.

- Member of the executive leadership team, setting strategic direction for HA's programs and structure
- Responsible for all employee relation's activities including grievance procedures and corporate governance
- Rewrote the HA's Personnel Policies and Procedures manual
- Standardized new-hire procedures and documentation
- Responsible for benefit selections, administration and employee communications
- Improved recruitment and retention with changes to pay classifications, employee leave policies and pension plan
- Initiated an awards program to recognize achievements and service at quarterly all-hands meetings
- Developed and standardized HR metrics reporting for HA management and board of commissioners
- Created new HR department. Implemented ADP Workforce Now HR and Benefits HRIS module and achieved major improvements in service delivery and internal/external perception of the department
- Developed and managed departments budgets
- Sourced and improved commercial liability, workers compensation and windstorm insurance programs
- Upgraded critical enterprise network and wireless capabilities. Standardized PC software and operating system

Morgan Consulting Group

Business Consultant: (February 2010-September 2012) – Consulting engagements primarily in the areas of Human Resources, Accounting and Operations for established businesses and start-ups. Specific areas included HR policies and Procedures, recruitment and credentialing procedures, employee contracts, pay scale evaluations, payroll processing procedures, benefits evaluations, accounting system implementation, policies and procedures for billing and collections, client service agreements, creating website content, marketing plans and proprietary web based scheduling systems,.

- Established administrative HR practices and procedures
- Recruited staff and implemented credentialing standards for physicians
- Developed client service agreements and physician employment contracts
- Implemented accounting systems (QuickBooks Premier, ADP Payroll) creating procedures and practices for time/expense billing, payables, payroll, etc.
- Designed pricing structures for client services
- Directed development of proprietary online scheduling system for clients and physician associates
- Wrote all content for client website and marketing materials
- Designed and implemented marketing plans

LFS Carolinas

VP for Human Resources: (March 2008 to January 2010) – Directed the human resources department in all HR functional areas for this 500-employee not-for-profit human services agency. LFS served the regions' most vulnerable populations from four program hubs located in both North and South Carolina.

- Member of the executive leadership team, setting strategic direction for agency programs and structure
- Responsible for all employee relation's activities including grievance procedures and corporate governance
- Responsible for benefit selection, communication and administration including restructure of agency pension plan
- Active contributor in agency change management activities including agency restructuring, program management and delivery models.
- Amended agency compensation practices including agency structure, incentive and awards programs
- Improved compliance with employment related laws (Title VII, FSLA, ADA, FMLA, EEO, etc.)
- Implemented e-learning system (Essential Learning) and corporate governance system (EthicsPoint) for all agency employees. Reduced cost and improved agency contract compliance reporting ability
- Developed and standardized HR metrics reporting for agency management and board of directors
- Created new HR department with accredited professionals Set high standards for department competence (ADP Payroll and ADP HR Perspective, Org Plus) and achieved major improvements in service delivery and internal/external perception of the department. Relocated the HR department from Raleigh to Charlotte, NC.
- Develop and manage HR budget. Assisted program managers with understanding the budget process

Morgan Resources, Inc.

President/CEO: (1993 to 2007) - Developed and directed all aspects of this regional healthcare and administrative staffing company; human resources, financial, IT, training, and client service. The company recruited, and placed approximately 500 applicants per year.

Human Resources:

- Performed all staffing and recruitment activities for exempt and non-exempt professionals
- Candidate sourcing, interviewing, assessment and placement (full cycle recruiting)
- Salary and pay scale analysis. Benefits selection and administration
- Client consultation/recommendation; advising clients on sensitive/difficult hiring and employment issues and problems
- HRIS system selection and implementation for applicant tracking, hiring management and employee self-service
- Developed training program for staffing consultants
- Responsible for all employee relations activities, both internal and contract staff
- Public Speaking engagements to management groups and associations on areas of human resources, specifically hiring practices and employment law

Financial:

- Budgeting and financial reporting
- Banking relations.
- Accounting systems and procedures
- A/R, A/P, G/L, payroll, cash flow
- Government reporting, Contracts, Compliance

Business Operations:

- Established strategic direction for company via detailed business plan and ongoing environmental scan
- Overall business operations management and IT systems selection providing organizational capacity to support growth (Accounting, Client Service, HRIS)
- Obtained major commercial contracts and government contracts with GSA and VA
- Developed/implemented sales and marketing plans. Directed day-to-day sales/marketing effort of staff
- Created company best practices, policies and procedures (administrative, accounting, personnel), brochures, forms, print ads

ICI / Zeneca (Currently: BASF/ AVECIA / AstraZeneca)

Pan Americas Controller, Zeneca Colours, (1991-1993) – Internal promotion.

- Financial, Human Resources, IT and Administrative executive with international responsibility for the Americas (1,200 employees in USA, Canada, Mexico, and South America). A \$900 million international business unit specializing in textile dyes and specialty chemicals
- Change Management / Restructuring. Provided direction in achieving international business objectives including development and implementation of strategic business plans requiring realignment of manufacturing assets in Mexico and Brazil, and closure of facilities in the USA
- Lead change agent in labor relations regarding facilities closures in the USA and downsizing in Mexico and Brazil.
- Developed all budgets and forecasts for the Americas region
- Provided timely and accurate consolidation and reporting of regional operating results and staffing metrics
- Direct reports included country controllers, plant controllers, HR, and IT and managers in the USA, Mexico and Brazil

Controller, Stauffer Management Company (SMC) (1989-1991) – Internal promotion.

- Coordinated divestment of discontinued operations
- Managed accounting staff for monthly closing and management reporting
- Motivated and influenced colleagues having no direct reporting relationship to me
- Preparation of all budgets/forecasts. Preparation and analysis of financial reports; Balance Sheet, P&L and Cash Flow

Senior Financial Analyst (1987-1989) – Internal promotion.

- Merger & Acquisition analysis and due diligence for ICI Group merger and acquisition activities in the United States
- Monthly business commentary and cost variance analysis in support of Specialty Chemicals Division
- Delivered formal presentations, executive business analysis and commentary for Specialty Chemical Division

Education:

BS, Accounting, The Pennsylvania State University, State College, PA.

AWARDS

Texas AGC / TxDOT Design Award (2004)

A&W Highway Contractors, 11400 South at I-15 Design Build, Salt Lake City, UT

Construction/reconstruction of 11400 South from 3600 West to State Street (US-89); northbound and southbound I-15 auxiliary lane construction from 11400 South to 10600 South; an overpass over the UPRR/UTA railroad Right of Way at approximately 400 West; and a large overpass bridge structure to accommodate a single point urban interchange (SPUI) at I-15 and 11400 South. Mr. Saldivar designed a segment of the 11400 South road and provided design support for the I-15 corridor and SPUI. He had oversight of horizontal and vertical geometry and design cross-sections. He also coordinated the roadway design with multiple discipline teams that included structures, drainage, utility conflicts/relocation, proposed utilities, right of way acquisition, MOT (maintenance of traffic), signing, striping, and signal layouts.

Role: Roadway Task Leader

A&W Highway Contractors, 11400 Interchange; State Street to Bangerter Highway Reconstruction, Salt Lake City, UT

HDR assisted Ames Construction with the development of preliminary engineering (concept and feasibility) design plans for a five-mile section of roadway to be upgraded from a two-lane facility to a five-lane roadway, and a two-mile section of freeway, including the construction of a new single-point urban interchange (SPUI).

A&W Highway Contractors, I-15 New Interchange at 11400 South Design-Build, Salt Lake City, UT

Mr. Saldivar led a team to design the improvement of 11400 South from a rural section to an urban boulevard section for three miles. In addition, he assisted in developing geometry for the single-point urban interchange (SPUI). Responsibilities included overseeing geometry, utility relocation, right-of-way acquisition, retaining wall, drainage, signing, striping, MOT, and cross-section development. Sam was involved with developing the "footprint" for the project which delineated the ROW needs for all parcels abutting the project limits. The project also won an award from DBIA - Rocky Mountain Region in 2011.

Role: Roadway Segment 1 Lead

Date: 08/2011

City of Corpus Christi, TX, 2008 Bond Program Assistance, Corpus Christi, TX

Provided preliminary engineering services to develop the scope, budget and schedule for 11 individual street projects as part of the CIP and Bond 2008 Issue

projects. These projects were each estimated to cost \$10 to \$12 million and required reconstruction to meet the City of Corpus Christi's Urban Transportation Plan. The projects included a full compliment of improvements to the utilities, storm water drainage, and roadway.

Role: Design Engineer

Date: 10/2008

City of Corpus Christi, TX, Airline Road Improvements, *Corpus Christi, TX*
 Bond 2008 improvements to Airline Road between Saratoga Boulevard and Rodd Field Road. Project consists of upgrading the existing two-land rural road without shoulders to a five-lane urban road with curb, gutter, and sidewalks. Also included utility upgrades and repairs (water, wastewater, gas) and significant stormwater improvements, as well as traffic signalization and area lighting improvements.

City of Killeen, Texas, FM 2410 and US 190/Rosewood Dr. Overpass Project, *Killeen, TX*

HDR prepared the application for the Pass-Through Finance Plan for improvements to three separate roadways including Farm to Market (FM) 2410, extension of Rosewood Dr and a new US 190/Rosewood Dr grade-separated interchange. The application was successful and HDR prepared Categorical Exclusion (CE) environmental documentation for the FM 2410 portion of the project and plans, specifications and estimate (PS&E) package for the FM 2410, US 190/Rosewood Dr overpass and Rosewood Dr extension. These plans included acquisition of right-of-way, signing, pavement markings, traffic control, erosion control, pavement assessment and design, utility coordination and field surveying. In addition, due to the proximity of the project to Skylark Field Airport, FAA Form 7460-1 Notice of Proposed Construction or Alteration was prepared and submitted for both construction activities as well as the proposed final design.

Role: Roadway Lead

Date: 02/2015

City of Pflugerville, Pflugerville Parkway (Eastern Segment), *Pflugerville, TX*
 HDR was selected to provide schematic design and final plans specifications and estimates to upgrade a five mile segment of the 2 lane roadway to a 4 lane divided arterial roadway. The project incorporates TxDOT criteria based on the 4c funding provided by CAMPO. Additionally, HDR provided traffic warrants, and signal, roadway, and stormsewer design.

Date: 06/2004

City of Round Rock, Arterial Storm Water Pump Station Preliminary Sizing, *Round Rock, TX*

Provided services related to the design of an underpass for the City of Round Rock Arterial A under the Union Pacific Railroad.

Date: 12/2001

City of San Antonio, Reed Road Improvements: Culebra to Military, *San Antonio, TX*

HDR provided preliminary engineering and final design services for the Reed Road: Culebra to Military project, a \$6.1M project to reconstruct and widen approximately 5,800 feet of roadway from a two-lane non-curbed section to three lane section to include left turn lanes, bicycle lanes, curbs, sidewalks, driveways, underground storm drain system and traffic signals. The scope of services included preparation of a Preliminary Engineering Report that outlined the controlling design criteria and set vertical and horizontal alignment allowing the right of way needs to be

determined. Final design services included preparation of plans, specifications, and estimates.

Date: 09/2010

Fort Bend Grand Parkway Toll Road Auth., Grand Parkway SH 99 Segment D Section 2 (New Territory Overpass), *Sugar Land, TX*

Responsible for the design of PS&E of Section 2 of Segment D which included the overpass at New Territory Blvd. and two bridges over Ditch "M" south of New Territory Boulevard. The project also included the design of the main-lane pavement geometrics, 9 retaining walls, SWPPP, and construction cost estimates for the project along the SH 99 (Grand Parkway) corridor.

Date: 00/2014

Gignac Associates, Chaparral Street Improvements, *Corpus Christi, TX*

See PM

Date: 07/2014

HDR Engineering, Arterial A Alignment (SA as sub to Austin), *Austin, TX*

The City of Round Rock Public Works Department contracted HDR's Austin office to prepare plans, specifications, and estimates for a new alignment of a 6-lane major arterial divided roadway. The project limit was from Joe DiMaggio Boulevard to Forest Creek Drive, totaling 1.14 miles. Project elements included retaining walls, storm sewer system, Chandler Creek Bridge and Brushy Creek Bridge and a railroad bridge over Arterial A. The San Antonio office assisted with preparing plans for drainage, SW3P, traffic control plans, signing and striping.

Role: Transportation Engineer

Date: 02/2008

HDR Engineering, U.S. Army Corps of Engineers - Fort Worth ECSO IDIQ, Rio Grande Valley Border Fence, engineering subcontract

This project entailed providing metes and bounds surveys and legal deed descriptions associated with the proposed "Border Fence". The project limits included Starr, Cameron, and Hidalgo Counties.

Role: Project Manager

NAVFAC Southeast, NAVFAC SE IDIQ, Basewide Signage Field Inspection and Design, *Corpus Christi Naval Air Station, TX*

HDR helped the Navy achieve signage uniformity and consistency by conducting field work to catalogue and inventory existing signs. Five engineering plan sets were prepared for sign replacement.

Role: Project Manager

Date: 10/2010

Port Authority of San Antonio, TIGER Grant Application, *San Antonio, TX*

Mr. Saldivar coordinated communication between the Port of San Antonio, HDR, and Pape-Dawson. He led the team in laying out horizontal geometry, planning conceptual drainage improvements, opinions of probable cost, and project schedules for a preliminary engineering plan and estimate of probable cost for TIGER grant application.

Role: Project Manager

Date: 09/2009

TxDOT- Dallas District, US 75 Reconstruction, *McKinney, TX*

The HDR Team designed 3.3 miles of the reconstruction of US 75 through McKinney, Texas including two diamond intersections, one single point urban

interchange, eight mainlanes, new ramps and new frontage roads.

TxDOT- El Paso District, Evergreen 2006, *El Paso, TX*

HDR was selected by TxDOT - El Paso for a two year evergreen contract. One Task Order has been issued for the rehabilitation of IH-10 in El Paso County. This project is the rehabilitation of 4.77 miles of existing east- and west-bound frontage roads. The work is overlay, mill and inlay, and base repair to be done at specific locations as designated by TxDOT. The project also included rehab of 0.84 miles of mainlanes and base repair and resurfacing of one exit ramp.

Role: Project Manager

Date: 07/2008

TxDOT Houston District, TxDOT Houston IH 45/IH 610 Direct Connector TxDOT Houston, *Houston, TX*

HDR prepared PS&E for IH45 south to IH610 east direct connector, SH35 south connector, IH45 bridge widening at Woodridge, IH610 bridge widening at Telephone and IH610 bridge widening at Broad and IH610 widening for approximately 2.5 miles.

Date: 00/2014

TxDOT- Pharr District, Border Safety Inspection Facilities, *Pharr, TX*

HDR was selected for the development of Border Safety Inspection Facilities, which will provide the needed safety inspection of trucks at the Port of Entry while providing for optimum throughput of the inspected trucks. Key project elements are inspection bays, roadway elements, queuing areas, parking areas, weight-in-motion (WIM) scales, support buildings and coordination of facilities with the INS using Intelligent Transportation Systems.

Role: Transportation Engineer

Date: 06/2009

TxDOT- San Antonio District, Planning Evergreen, *TX*

Task Order 1- SH16/SH46: The project consisted of designing a conceptual intersection layout that upgrades an existing 4-lane undivided highway with at-grade intersections to a 4-lane divided highway with a grade separation at the intersection of SH16 and SH46. Allowance for future lanes was included. HDR provided horizontal and vertical alignments, ROW impact analysis, retaining wall analysis, matrix outlining the options for alignments, construction cost, and ROW impacts/costs.

Role: Project Engineer

TxDOT- San Antonio District, US 281 - Loop 1604 Revisions, *San Antonio, TX*

HDR designed the revised geometric alignments to allow for the addition of proposed tolled managed lanes along Loop 1604 and direct connectors that feed traffic into and out of the proposed managed lanes of Loop 1604 onto the proposed general purpose main lanes of Loop 1604 and US 281, as well as the proposed tolled main lanes along 281 N. HDR provided associated cost estimates and constructability reviews for each of the proposed eight direct connecting bridge structures and approach roadways.

Role: Transportation Engineer

Date: 01/2008

TxDOT- Waco District, US 190 Reliever Route, *Copperas Cove, TX*

The HDR Team will design the US 190 Bypass around Copperas Cove, Texas. The project is a new location and will include engineering a four-lane freeway with grade

separations. The design will consist of freeway mainlanes, cross street bridges, entrance ramps, exit ramps and the moving of an existing landfill from the right of way of the proposed bypass.

USPS, USPS WO #4 - Cedar Elm Paving, San Antonio, TX

HDR was responsible for the redesign of the existing layout of the Cedar Elm Postal Facility. This included revising the site layout to accommodate increased traffic loads, circulation plan, drainage design, site grading, ADA compliance, demolition and cost estimates.

Date: 07/2008

NON-HDR EXPERIENCE

Kostoryz Road Widening, Corpus Christi, TX

Widened 2 lane urban road with roadside ditches to a 5 lane curb and gutter section. Designed Vertical Alignment. Performed Hydrologic Analysis for contributing drainage areas. Designed the curb and gutter storm system. Designed the Design Cross-Sections and calculated earthwork volumes.

Role: Engineer In Training

SH 286/ SH 358 Interchange

Upgrade existing interchange from 3 legs to 4 legs with direct connectors and clover leaf ramps. Designed storm sewer system for interchange. Designed grading layouts. Designed horizontal and vertical alignments for minor roadway sections. Designed soil nailed wall layouts.

Role: Engineer In Training

SH 35

Upgrade a rural 2 lane road to a rural 4 lane divided. Designed the Pavement Structure. Designed the striping layout and calculations.

Role: Engineer In Training

SH 89

Design of rural 4 lane divided highway with 8 grade separations. Designed vertical and horizontal alignments, designed cross-sections & earthwork volumes, coordinated hydrology & hydraulics. Oversight of traffic control plan, bridge layouts, P&P sheets, and retaining wall layouts.

Role: Project Manager

US 181 Phase 2

Widen a 4 lane divided to a 6 lane freeway facility with overpasses. Designed Striping Layout and Calc's. Designed curb and gutter storm sewer for frontage roads. Designed driveway pipes for side streets.

Role: Engineer In Training

US 181 Phase 3

Designed vertical and horizontal alignments for mainlanes and ramps. Created design cross-sections and calculated earthwork volumes. Oversight on drainage design. Designed traffic control plan. Oversight of SW3P.

Role: Project Manager

US 59 Super 2
