Background:

The subject property is a 12.45-acre undeveloped parcel out of an 80-acre parent and unplatted tract slated to be developed as a medium-density residential subdivision. The parcel is located along the south side of Woolridge Road, west of Oso Parkway, and east Rodd Field Road and Victoria Park Drive.

The property to the north of the subject parcel is zoned "FR" Farm Rural District with a current land use of Public/Semi-Public and Low-Density Residential. To the south is the "RS-4.5" Single-Family (the densest of the medium-density residential districts), Victoria Park subdivision with current land uses of medium-density residential. A park out of the Lost Vientos at Terra Mar subdivision, abuts the parcel immediately to the east. To the west is the remainder of the larger tract.

The applicant is requesting a change of zoning to allow denser residential subdivision. The "RS-4.5" Single-Family 4.5 District permits single-family detached houses and group homes. A limited number of public and civic uses are allowed, subject to the restrictions necessary to preserve and protect the single-family character of the neighborhood.

Plan CC (City of Corpus Christi Comprehensive Plan) Consistency:

The proposed rezoning is consistent with the following Elements, Goals and Strategies for Decision Makers:

- Housing and Neighborhoods:
 - New cost-effective residential subdivisions are established in high-growth corridors to support the demand for new housing.
- o Future Land Use, Zoning, and Urban Design
 - Corpus Christi development patterns support efficient and cost-effective use of resources and a high quality of life.
 - Encourage the protection and enhancement of residential neighborhoods.
 - Encourage orderly growth of new residential, commercial, and industrial areas.
 - Promote a balanced mix of land uses to accommodate continuous growth and promote the proper location of land uses based on compatibility, locational needs, and characteristics of each use.
 - Corpus Christi has well-designed neighborhoods and environments.
 - Encourage residential infill development on vacant lots within or adjacent to existing neighborhoods.

Southside ADP (Area Development Plan) and FLUM (Future Land Use Map) Consistency:

The proposed rezoning is consistent with the Area ADP and the future land use designation of Medium-Density Residential.

Staff Analysis:

Staff reviewed the subject property's background information and the applicant's purpose for the rezoning request and conducted research into the property's land development history to include platting, zoning, existing surrounding land uses, and potential code violations. Staff compared the proposed zoning's consistency with the applicable elements of the comprehensive plan. As a result of the above analysis, staff notes the following:

- The rezoning request is consistent with the City of Corpus Christi Comprehensive plan and the future land use designation of the Medium-Denisty Residential.
- The proposed request is compatible with the present zoning districts and conforming uses of nearby properties and to the character of the surrounding area.
 - Woolridge Road is lined primarily with medium-density residential developments with, followed by modest low-density residential uses, and public/semi-public uses, which are all compatible with the applicant's proposed zoning district. This pattern is consistent between Holly Road and the Oso and Oso Parkway, east of Rodd Field Road, and although less prominent, is also particular to the west of Rodd Field Road.

• The property to be rezoned is suitable for uses permitted by the zoning district that would be applied by the proposed amendment. The applicant's request, if approved, will not have a negative impact upon the surrounding neighborhood.

Staff Recommendation:

After evaluation of case materials provided and subsequent staff analysis including land development, surrounding uses and zoning, transportation and circulation, utilities, Comprehensive Plan consistency, and considering public input, staff recommends approval of the change of zoning from the "FR" Farm Rural District to the "RS-4.5" Single-Family 4.5 District.
