

# Federal Aviation Administration Airport Improvement Program – Grant No. 74

---

Ordinance Authorizing Acceptance of Grant Award

Corpus Christi International Airport  
Interim Director of Aviation, Jeremy Valgardson

September 2, 2025

# Background Information

Ordinance appropriating \$557,814.00 from Federal Aviation Administration Grant No. 74 in the Airport CIP Grants - Fund 3020 for the design of the Terminal Access Road "International Drive Rehabilitation" Project with a 5% cash match provided from the Airport CIP Reserve - Fund 3018.

**This grant will provide funding for:**

This grant will assist in funding the design of the International Drive Rehabilitation Project. The existing pavement is in poor condition and needs to be reconstructed.

# Background Information

Design will include Full width reconstruction / rehabilitation of International Drive beginning at SH 44 and ending approximately 100 feet south of the turnaround near Glasson Drive (approximately 2,000 linear feet each direction).

The design scope will also include curb and gutter for at least one side of the road from SH 44 to the existing terminal building, updated landscaping and roadway lighting and signage, improved pedestrian elements to meet current ADA, PROWAG, and City standards.

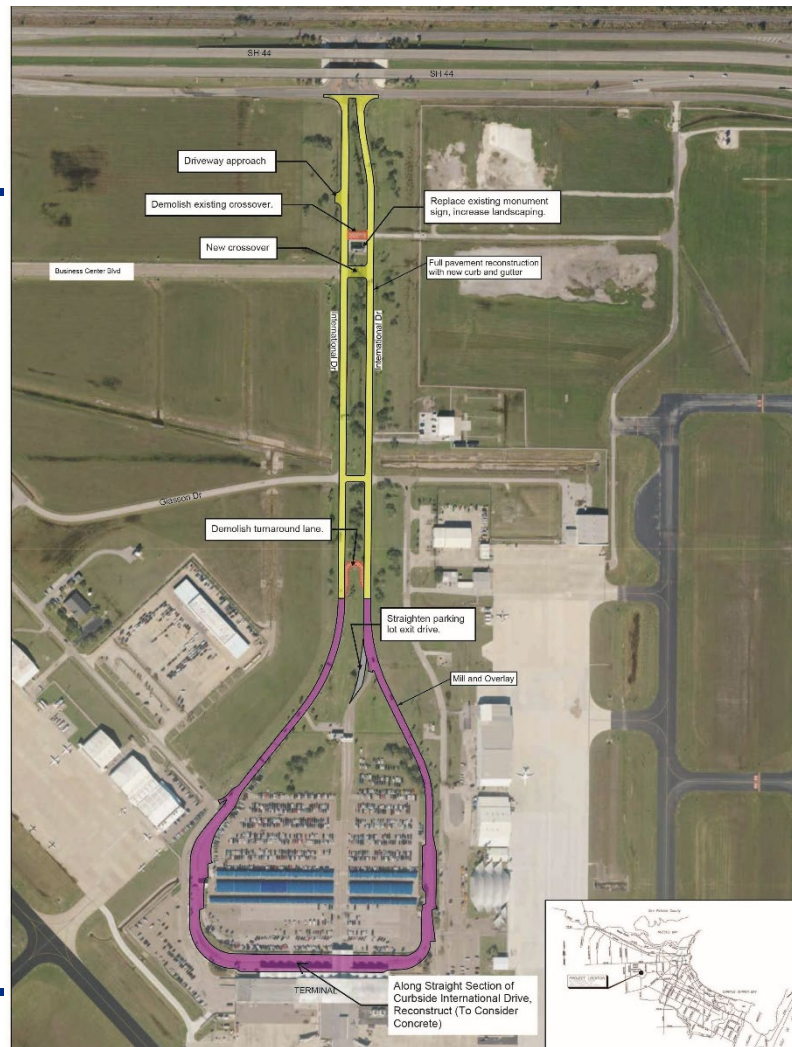

# Background Information

---

The rehabilitation portion of the design will include mill and overlay of the existing asphalt pavement leaving in place existing curb and gutter. Design will also include an extension of the waterline main in the northbound lane corridor of International Drive to create a loop for the primary water feed for the terminal.
