V. Consent Public Hearing: Discussion and Possible Action (Item A)

Mark Orozco, Development Services, read Consent Agenda Item A into the record. The plat satisfies all requirements of the Unified Development Code (UDC)/State Law, and the Technical Review Committee (TRC).

Commissioner Hedrick had a question about the alley.

Ms. Whitmire stated there was a review of the ability of fire department and solid waste vehicles making the turn.

Commissioner Salazar-Garza asked if fire and trash actually looked at the area in person.

Ms. Whitmire stated there is nothing onsite constructed yet but the dimensions were reviewed on the plan set with an overlay of the turning radius of the largest fire engine and that signage and curb striping was added to assure no parking was allowed. The arrangement was approved in the preliminary plat from 2018 but this final plat was evaluated to meet current requirements.

Mark Orozco added there is a temporary secondary fire access as well. Ms. Whitmire stated that was a good point and explained that because of this being a phased development this unit only had one connection and so a temporary fire access was included in this phase until the next phase provides additional connectivity.

Chairman Miller opened Public Comment.

Seeing no one to speak, Chairman Miller closed Public Comment.

A motion was made by Vice Chairman York to approve Item A, 2, as presented by staff, seconded by Commissioner Motaghi. The Vote: All Aye. The motion passed.
