

The Executive & Junior Golf Training Facilities

at Gabe Lozano Golf Center

for The City of Corpus Christi, Texas

- 1 Expanded practice tee can accommodate 50 hitting stations at one time.
- 2 The range area will be excavated and lowered to create better visibility from the tee, improve the drainage and create fill to be used on the golf holes and for a high ridge to wrap around the range for protection and containment.
- 3 Add a new 10,000 sq. foot practice putting green. The existing practice putting green can be used as a warm-up green for players on the eighteen hole course.
- 4 Add a short game practice area for chipping and bunker practice. The area can be set up as six separate practice areas or as a six hole chip-n-putt course with each hole playing up to 30-40 yards long.
- 5 Add a precision pitching area with small target greens at 10 yard distances up to 100 yards.
- 6 Add a Scottish-style "burn" to facilitate drainage for the 9 hole course and to add some strategy, variety and interest to a few of the holes. The burn will drain into the existing drainage channel along the east side of the golf course.

Practice Range Yardage Chart								
	Target 1	Target 2	Target 3	Target 4	Target 5	Target 6	Target 7	Target 8
A1	105	135	155	185	205	235	260	310
A2	110	120	160	180	210	230	265	315
A3	130	120	170	175	220	230	265	275
B1	65	95	115	145	165	195	220	270
B2	70	80	120	140	170	190	225	275
B3	95	80	130	135	180	190	225	275

Card of the Course				
Hole	Par	Back	Middle	Forward
1	4	330	265	210
2	3	115	95	65
3	4	365	300	250
4	3	230	190	120
