Staff Summary:

Requested Zoning: The applicant is requesting a rezoning from the "IL" Light Industrial District to the "CI" Intensive Commercial District to allow for the enclosure of a 1,848 square foot building.

Development Plan: The subject property is 0.17 acres in size. The applicant proposes to enclose an existing carport. The structure is on the property line and the "IL" Light Industrial District does not permit zero lot line standards.

Existing Land Uses & Zoning: The subject property is currently zoned "IL" Light Industrial and consists of an electrical service business which is a retail/service oriented use. All adjacent properties and those across streets are all zoned "IL" Light Industrial District. The Central Catholic Elementary School is to the north of the property. To the west is a vacant lot and to the east across North Staples Street is a restaurant use. South of the subject property is a medium density residential use.

AICUZ: The subject property is not located in one of the Navy's Air Installation Compatibility Use Zones (AICUZ).

Plat Status: The property is platted.

PlanCC & Area Development Plan Consistency: The subject property is located within the boundaries of the Central Business Area Development Plan (ADP). The proposed rezoning to the "CI" Intensive Commercial is consistent with the Future Land Use Map and consistent with the following policies of the Central Business ADP and PlanCC:

- Promote a balanced mix of land uses to accommodate continuous growth and promote the proper location of land uses based on compatibility, locational needs, and characteristics of each use (Future Land Use, Zoning, and Urban Design Policy Statement 1).
- With exception to the industrial use areas permitted and depicted on the Central Business Future Land Use map, new industrial uses and outside storage uses shall be discouraged within the Plan Boundary, and existing industrial zoning or land use changes to another or expanded industrial use shall be discouraged. (Policy LU 1.4).

Department Comments:

- The proposed rezoning is compatible with the Future Land Use Map, PlanCC and the Central Business Area Development Plan (ADP). The proposed rezoning is also compatible with neighboring properties and with the general character of the surrounding area. This rezoning does not have a negative impact upon the surrounding neighborhood.
- Mr. Leal would like to enclose an existing non-conforming carport for security purposes as he has had many burglaries. The "CI" Intensive Commercial District would allow zero lot line setbacks and facilitate the improvement of his building.
- The rezoning to the "CI" Intensive Commercial District is an opportunity to start the redevelopment of the area away from industrial uses and implement the land use policies of PlanCC and the Central Business ADP.

Planning Commission and Staff Recommendation (August 9, 2017):

Approval of the change of zoning from the "IL" Light Industrial District to the "CI" Intensive Commercial District.
