Notes: Reinvestment Zone #2, commonly referred to as Packery Channel was created pursuant to the Tax Increment Financing Act to facilitate development of the land within the boundaries of the tax increment zone. The Zone became effective on November 14, 2000. The funding source is post-2000 incremental property taxes from taxing units with property within the boundaries of the zone.

Total project cost was \$30 million of which the City was responsible for 35% or \$10.5 million. This was financed through tax increment contract revenue bonds. An additional \$1.4 million was needed to repair the damages to Packery Channel caused by Hurricane Rita and Hurricane Emily. This brought the total amount financed by the City to \$12 million in four debt issuances.
