

Citywide Wastewater Indefinite Delivery Indefinite Quantity (IDIQ) – Manhole Improvements FY2024

Council Presentation
May 06, 2025

Project Location

Project Scope

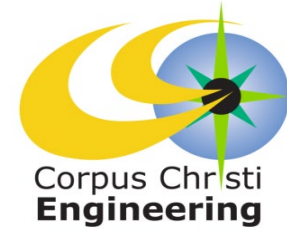

A brief summary of proposed improvements is as follows:

- Project will include rehabilitation, replacement, and point repair of wastewater collection system manholes and pipelines.
- Work includes dewatering through well pointing, control of wastewater flow through bypass pumping, cleaning and televised of pipelines as needed, and site restoration to pre-existing or better conditions.
- Work also includes emergency response Delivery Orders that require Contractor to always have management personnel and crews available and on-call during the Contract to provide emergency response on-call services.

Project Schedule
