

## **ATTACHMENT A-1: SCOPE OF WORK**

**Project Name:** Audio and Video Replacement for City Council Chambers and Media Control Room-Phase II.

**Project Address:** City of Corpus Christi, City Hall, 1201 Leopard Street, 1st Floor, Corpus Christi, Texas, 78401

### **Scope of Work**

#### **Part I: City Council Chambers Audio and Video Replacement**

The goal of this project is to upgrade the existing council chamber's audio and video (AV) experience. This will give the users a more enjoyable and reliable experience and reduce the maintenance load on staff.

#### **COUNCIL CHAMBERS**

##### **VIDEO**

- A. The Contractor will install a new AV over IP video distribution system which will handle video distribution to the 4 current displays in the Council Chambers.
- B. The Contractor will replace the council dais displays with 19 Televic uniCOS T/MM10 conference systems.
- C. The Contractor will install two 98" displays on the two side walls in the back of the council chambers.
- D. The Contractor will install two 98" displays above the council dais.
- E. The Contractor will include they video production system input needed for the current streaming and television setup.

##### **AUDIO**

- A. The Contractor will install a new DSP for audio routing to handle all audio routing and tuning.
- B. The Contractor will remove existing analog mixer boards from the system to allow for a more consistent reliable experience.
- C. The Contractor will install new ceiling speakers for the council chambers, lobby outside the chambers and the conference rooms.
- D. The Contractor will configure the system into multiple zones to allow for separate audio in the back of the council chambers when being used for smaller meetings, lobby, offices using OFE speakers, and conference rooms.
- E. The Contractor will install new amplifiers to power the new speakers at the correct voltage.

- F. The Contractor will tune the system to achieve the best audio possible in the space with an emphasis on voice lift due to the use of the system.
- G. The Contractor will replace all wired microphones on the dais with wired Televic conference systems tied in with the RTS and voting.
- H. The Contractor will replace staff table microphones with wired Televic conference systems.
- I. The Contractor will replace podium microphone with wired Televic Confidea flex microphone.
- J. The Contractor will add 4 new wireless microphones to the system and the existing 8 OFE wireless boundary mics will be reused with the intent to use them for smaller meetings.
- K. The Contractor will install 4 outputs for media hookups on the left side of the council chambers and 4 outputs will be installed on the right side near the back of the council chambers.
- L. The Contractor will install ceiling mics to allow for voice pickup in the majority of the room.

### **Control**

- A. The Contractor will install and configure 1-10" touch panel in the control room, 1-7" panel in the city secretary's desk, and 1-7" touch panel in the wall near the interactive display to run the rear area when the system is being used in the smaller configuration.
- B. The Contractor will install an RTS system on the dais for each council member which will be tied into the council mics. This will allow for standard RTS functionality as well as remote management of the council mic from the control room in the event it is needed.

### **Part II: Production and Media Control Room Audio and Video Replacement**

The goal with this project is to build out the AV control room that will handle all of the Audio and Video Mixing, Camera switching and Control, Streaming, Recording, Playback, and storage for the Council Chambers.

### **COUNCIL CHAMBERS CONTROL ROOM**

The main video switching system will be upgraded using the Newtek Tricaster 2 Elite system with a 2-stripe control panel. This system is capable of 32 inputs at resolutions up to UHD 2160p 59.94. Features include 8 M/E buses, 4 DSK channels, 5 Media Players, 15 Media Buffers, Keyers, 32 total recording channels, 4TB Media Storage, Multiview Output, PTZ Camera Control and much more.

## **Video System**

- A. (4 total) monitors will be installed to show the multiple video inputs and sources and will include the program/preview source. two monitors will be for the in room PC (Council Chambers) and two monitors will be for the Tricaster (Control Room).
- B. (2) 55" displays will be wall mounted to extend video during production.
- C. An NDI feed will be provided to be used with the owner provided ENCAPTION System.
- D. Playback automation, storage and streaming management will be provided using the Cablecast platform. An 8 Channel video server will manage the playback, VOD and OTT Publishing, including graphic announcements and schedule promotion.
- E. (6) new NDI 4K PTZ cameras will be installed into the council chambers to provide a better-quality camera feed. From the control room the PTZ camera functions and scenes can be created and selected.
- F. The Newtek Council Chamber App will be setup to use on a PC for simple switching and PTZ control during a Council Meeting.
- G. A DVD recorder will be rack-mounted.
- H. A mobile 5G streaming production field unit (LiveU LU800 Pro) and (LiveU Solo) will be provided for live mobile broadcast. The LU800 pro provides up to 4 SDI inputs and 16 audio channels. These devices support 12G/3G/HD/SD-SDI and HDMI 2.0 camera connections.
- I. OFE Fiber feed will be converted and used as an input into the system.

## **Audio System**

- A. New digital console speakers and headphones will be provided for mixing of audio sources during a recording/streaming session in the control room.
- B. A Digital mixing console will be provided for real time audio mixing. The console will include 96 input channels with 24 mono/stereo mix busses, LRC master busses, as well as a Dante connection.
- C. A IFB system will be provided. A volume knob will be provide for controlling volume. (4) Ear sets will be provided for the end users.
- D. A enCaption automated closed captioning system will be included with a 3 year subscription
- E. A tabletop mounted microphone will be provided as a routable audio input into the system. The microphone will include an 18" gooseneck and a push to talk base station.

### **Emergency backup devices**

A backup control processor and DSP will be installed to the existing system to act as a failsafe. Having these backup devices will reduce the downtime to minutes instead of days during the occurrence of a failure.

### **Storage**

A Newtek 120 TB storage device will be installed. This will provide instant access to an expansive library of stored media assets, to enabling essential and extended recording sessions, to supporting hours upon hours of content for archive, on-demand, and post-production, shared remote storage is a principal requirement for modern production workflows.

### **Furniture**

A custom production furniture system will be provided to house the equipment and provide the worksurface for mixing and video switch.

### **Support**

All Newtek products will include the ProTek Ultra support. This includes priority hardware repair, remote hardware diagnostic services, 24/7 telephone support, and advanced hardware replacement.

### **Avinext AV Managed Service Offering (Gold) includes:**

- A. 24/7 monitoring of all network-connected AV devices
- B. Proactive event management and ticket notifications via email
- C. Appliance for remote monitoring / support
- D. Firmware updates
- E. Level 1 and level 2 remote diagnoses
- F. Virtual pre-flight test calls
- G. Annual service reports
- H. Priority service response for MSP clients over non-MSP clients
- I. Priority service response for MSP client emergencies
- J. 10% discount on labor for moves, adds, changes (does not include installations or refreshes) This Managed Service Offering is included for the duration of the Warranty Period Avinext will provide 1 Technician for an event of your choosing to assist with setup and operation of the AV system. The goal is to make sure you are comfortable and confident during your first time interfacing with the system. This is not intended to be used as a training event.
