

# Leopard Street and Up River Road Waterline Replacement

Council Presentation  
June 28, 2022

# Project Location

# Project Scope

---

A brief summary of proposed improvements is as follows:

- Project Consists of the rehabilitation of 18,400 LF of 30-inch cast iron waterline and replace with new 24-inch C900 PVC Pipe. This project will serve both residential and commercial service on the north side of IH 37 from Sharpsburg Rd to McKenzie Dr.
- This project will also assess a route for a new 24-inch waterline along McKenzie Rd from Leopard to Upriver Rd. It will connect to an existing 24-inch waterline on Upriver Rd.
