2050 Metropolitan Transportation Plan (MTP) Presentation

OUTSIDE PRESENTER(S):

	<u>Name</u>	<u>Title/Position</u>	<u>Agency Name</u>
1.	Robert MacDonald	Director	MPO

BACKGROUND:

The 2050 Metropolitan Transportation Plan (MTP) is the Corpus Christi Metropolitan Planning Organization's (MPO) long-range transportation plan that consists of fundamental components based on the federally required planning process such as achieving national goals, implementing performance-based planning and programming through data analysis, forecasting, scenario planning, and involving the public in the transportation decision-making throughout the development of the plan.

The initial critical steps for the plan include adopting socio-economic control totals, a Corpus Christi MPO Metropolitan Planning Area (MPA) boundary update based on the 2020 Census result, and functional classification of roads.

The MPO is currently providing informational presentations to their partners over the next few months to bring awareness to the plan.
