Education, Professional and/or Community Activity (Present)

I currently have my MBA from TAMUCC. I am born and raised in Corpus Christi and I see the growth that is happening in our city, as a local I want to be a part of the amazing change I am seeing. In my current role, I work closely with licensed Medicare brokers and I see the value that my broker partners bring to our senior population. I have recently partnered up with The Senior Companion program and I see the value that these programs bring to our community. I want to be more involved in bringing awareness and resources to our local Coastal Bend community and I feel by being a part of this board I can give back by being the intermediary between seniors/community and things happening in our community. I am on the board of "For the Love of Children" which is put on by HALO-Flight, DPS, and Conviva Care Centers.

If you applied for multiple boards, which boards are you most interested in serving on, in order of preference? (Limit to top three)

Parks and Rec Arts and Culture

Why are you interested in serving on a City board, commission or committee?

Recently I have gotten more involved with the senior companion program and am mind blown at the selflessness that the companions and the whole senior companion program represent. Not everyone in our community has access to resources and I have found that I enjoy being that resource to our community, whether it be a friend, family member, potential patient, or just being able to educate. We are one community and I want to be the change I want to see, I want to be the advocate that someone wishes they had, and I want to be able to know I did a good deed today. I am growing professionally and personally and I feel being a part of a City committee will only give me more resources to help others in my community.

Why are you interested in serving on a City board, commission or committee?

I have enjoyed my time on the Parks and Rec Committee thus far and would like to continue to serve, and the parks committee remains a natural fit for me as I run a nonprofit whose major program is assisted athletics for people with disabilities. During my tenure we have advanced major initiatives (Adopt a Park, Accessibility review, etc.) and I'd also like the opportunity to see those initiatives through

Why are you interested in serving on a City board, commission or committee?

I am interested in serving on the Parks & Recreation Advisory Committee because I have a passion for community well-being. I want to be a part of enhancing my community's quality of life. Parks and recreation facilities contribute significantly to community health, leisure, and social interactions. Serving on such a committee allows me to directly impact decisions related to park development, programming, and maintenance. It offers a chance to shape the environment people live in. I hope to have a voice in promoting physical activities and mental well-being. I am interesting in fostering healthier lifestyles within my community. It's an opportunity to engage with fellow community members, collaborate with local government officials, and work towards common goals that benefit everyone. Serving on an advisory committee can provide valuable experience in governance, leadership, and public service, which can be personally fulfilling and professionally beneficial. By joining this advisory committee, I aim to ensure that future generations have access to well-maintained facilities and spaces where they spend time outdoors, making memories, staying physically active.

We photographed Roger and his dad enjoying an ice cold beer and having a good ol' time. Why are you interested in serving on a City board, commission or committee?

As a pediatrician and active advocate for the children in our community, I am deeply aware of the importance of childhood play to enhance children's development and well-being. There are a significant studies that show outdoor play, play in nature significantly improves a child's ability to excel in school, excel in physical movement as their body adapts to movements outdoors, improved mental health, and significant improvement in problem solving and creativity. I want to add my voice as a pediatrician, an expert on child's health, to help improve our parks, outdoor walkability and access to parks for all children and families in our communities. I believe that I would add a valuable perspective to this committee based on the current community organizations I am a member of as well as serving as a local pediatrician and educator for up-and-coming pediatricians. I believe it necessary to have a pediatric health care expert participate in the growth of the community that affects the youth we are currently treating and seeing on a daily basis.

Education, Professional and/or Community Activity (Present)

I may not have the fancy school education or deep community connections, but I've worked hard to carve out a path for myself and make an impact where I can. I earned my Real Estate Certification from Tarrant County College in 2020 and spent a year studying Film and Digital Marketing at Collin College. These experiences taught me how to adapt, think creatively, and approach challenges from different angles. Professionally, I've spent the last several years selling manufactured homes, helping families find affordable and quality housing solutions. It's a career that has shown me the importance of listening to people's needs and advocating for them when it matters most. While my community activity hasn't been through large organizations or flashy events, it's been in the small, meaningful moments—mentoring coworkers, helping friends navigate buying their first homes, and using social media to share knowledge about affordable housing options. These are the spaces where I've learned the value of contributing and connecting with people on a real, human level.

If you applied for multiple boards, which boards are you most interested in serving on, in order of preference? (Limit to top three)

I am most interested in serving on the Corpus Christi Regional Economic Development Corporation board, as I believe economic development plays a critical role in shaping the future of our community and ensuring long-term prosperity. However, I am equally enthusiastic about the opportunity to serve on the Parks and Recreation Advisory Committee, as it directly enhances the quality of life for the community here by promoting health, wellness, and community engagement. Both boards provide tremendous value to the community, and I am fully open to contributing wherever I can be most helpful. My ultimate goal is to support initiatives that strengthen and uplift Corpus Christi, no matter the capacity in which I serve.

Why are you interested in serving on a City board, commission or committee?

I'm applying because I believe representation matters, and I want to bring my work ethic, real-world experience, and commitment to serve others. Parks and recreation play such an important role in bringing people together, giving families and friends spaces to connect, relax, and enjoy life. I want to help make sure those spaces are the best they can be-accessible, well-maintained, and a true reflection of what our community deserves. When it comes to economic development, I've always been big on our cities growth and ways that create opportunities for everyone. Serving on this board would give me the chance to work on strategies that bring in new businesses, support the ones we already have, and keep building up Corpus Christi as a place people want to live, work, and invest in. At the end of the day, it's about giving back and doing my part to make sure our city continues to grow in ways that benefit everyone.

If you applied for multiple boards, which boards are you most interested in serving on, in order of preference? (Limit to top three)

This is the only board I applied for.

Why are you interested in serving on a City board, commission or committee?

I have been interested in giving back to my community by serving on boards or committees, as you can see from my Education, Professional, and Community Activity box. I believe that it's essential for community members to actively participate in governance by volunteering their time to serve on boards and attend council meetings. My background is in Kinesiology and Education. I enjoyed serving on the Mayor's Fitness Council while it was active. Recently, I applied to be a member of the Texas School Health Advisory Council (TSHAC) and was chosen as an alternate member. This experience sparked my interest in researching board vacancies in the city that interested me. As a result, I applied for a position on this board.
