

Wastewater Services, Cleanouts and Manhole Adjustments IDIQ 2018

Council Presentation
August 21, 2018

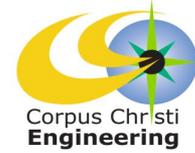

Project Location

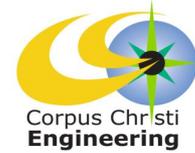

Project Vicinity

Project Scope

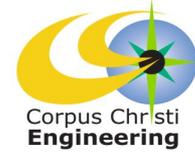

Provides engineering and IDIQ construction project for improvements to the wastewater and storm water collection systems. The wastewater improvements primarily target reducing wastewater system I&I and minimizing wastewater overflows. Project includes the following:

- Engineering services: Field investigations and analysis for preparation of multiple Delivery Orders with construction phase technical support for the initial base year plus two additional optional extensions (\$159,526 and \$401,418 respectively)
- Multi-year IDIQ construction contract: (\$764,707 and \$2,294,121 respectively)
 - Replaces approximately 3,700LF of existing wastewater service lines
 - 255 Sanitary Sewer clean-out replacements
 - 160 Wastewater Manhole Ring and Cover Adjustments
 - 56 Storm Water Manhole Ring and Cover Adjustments
- ❖ Optional one-year extensions will be administratively authorized by the City Manager, or designee, based on satisfactory performance and availability of funds.
