

Salinas Park Improvements (CDBG)

Council Presentation
December 6, 2022

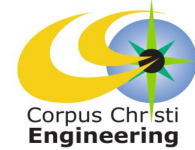

Project Vicinity

Project Scope

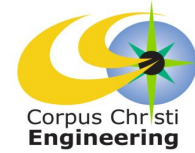

The construction scope includes:

- Replacement of the existing asphalt trail located on the upper north side of the park (approximately 12,270 sq ft)
- Seven (7) foot-wide concrete walking trail
- Lighting along the trail
- Two (2) exercise stations with 3 fitness equipment units per station.
- The fitness equipment include: an adjustable arm curl, a sit-up bench, back extension, adjustable leg extension and curl, adjustable squat, and an adjustable Ab toner.
- All improvements will be ADA compliant.

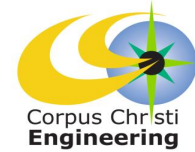

Example Exercise Stations
