Inner Harbor vs. STWA desalination

Hello Council Members:

I am respectfully asking each of you to support the STWA desalination project. The late June vote of 5-4 took place, and the contract should be signed now with Seven Seas, or another source. Please stop filibustering.

Look at the map around Corpus Christi. Please don't dump your water there. A pipeline already exists to Kingsville.

Our city model shows Western Water Supply will be empty by April 2027 and Inner Harbor will not be complete until August 2028 or after, and with substantial cost increases.

Please do not delay the STWA project. The contract can be signed with the understanding that the company must obtain the necessary TCEQ permits and do environmental studies required for permitting. Seven Seas is experienced.

This has been vacillating for too long. The citizens of Corpus Christi know what's going on. Is this ethical?

We deserve better.

Waive deadline to submit contract with South Texas Water Authority

My name is Lori Jo Walker. I own property at 1205 and 1209 E CR 2360 in Riviera, Texas. I ask you to vote to waive the deadline for contract between the City of Corpus Christi and South Texas Water Authority. As I and many other stated last week, discharging into local waterways is environmentally reckless and unnecessary. I am not against desalination, but the discharge must be disposed of properly and without damage to our environment.

We ask that other methods of disposal be researched. All information regarding this project should be presented to the public with adequate time for discussion and comment. We all want growth and success for South Texas, but we need to proceed in a way that protects our residents and the environment we all live in and love.

In addition, I ask that you not rezone the Hillcrest area to industrial. This long enduring and important community deserves to remain in the area where they have built their lives.

Thank you for your service.

1. Why has there been no proposal for the costs to put in a pipeline to pump the desal brine discharge 4-5 miles offshore? I have seen zero cost proposal, just people saying "its too expensive". That's not a good enough excuse. I want to see hard facts and data on costs.
2. When the DHI Modeling representative (gentlemen with an Australian accent) at the 7-15-24 meeting stated that the information in the model was proprietary, this is extremely alarming. You can literally go to the DHI website (<https://www.dhigroup.com/technologies/mikepoweredbydhi/pricing#ContactForm>) and order the software. Anyone can... There should be secondary checks to verify this model and its information are accurate and factual. Ask Texas A&M. Trust, but verify... If this model is wrong, you will see one of the worst environmental screw ups in the history of this city.
3. Seven Seas and STWA have been lacking transparency with the public. I have emailed both with simple questions, and zero response.

Please continue to pursue a contract with SWTA and Seven Seas. The contract should be very detailed and specific regarding the cost and the disposal of the discharge, which should not have a negative effect on our creeks, rivers or bays. Thank you for exploring this option, as well as other options that will give the residents water as soon as possible.

South Texas Water Authority project

Agenda Item Number

Comment

I support the South Texas Water Authority project. It costs us zero and we only buy the water if they produce it. We need cheap water and Seven Seas can give it to us. We only have to pay for the electricity to pump it here using the already existing pipe.

I also support going with the Evangeline system. These two water systems seem to be cheaper than the high-priced Desal plant which is now at 1.2 billion and only going up from that original \$220 million. Don't be fooled, look at what other USA Desal plants cost and are producing. Many others are not producing like what they promised and are out of service months of each year. Like when we sent 2 council members to visit one and found they were closed for repairs.

Last thing, those over-priced wells you are digging along the Nueces river could have been done by other companies for less than 1.2 million each. But at least they are giving us some water. Thank you.

Rezoning of Hillcrest and desalination

Agenda Item Number

General public

Comment

I am against the rezoning of Hillcrest neighborhood for heavy industry.
I am not against desalination but do not feel that we the community should be paying the bill for it. We are the least consumers so industry should pay for it. I would also like for industry to build the pipeline to have the brine discharge 100 miles out and for it not to be done in the inner harbor.
I would like to thank those of you that ask the questions on behalf of your constituents.
The price tag for this desalination plant is outrageous and we all know that the city has a history of not caring for what they manage (example) the ABC , the water gardens,the money spending at Hooks games the p- card usage for alcoholic beverages and food. That's just a few.
Please do better.

Thank You.

Library Bond

Agenda Item Number

Comment

Good Morning, please keep the ball rolling for the bond to renovate La Retama. It is the Central and Main Library and deserves to be treated that way. Right now, paint is peeling off the building and patrons can't see out the window to our beautiful Blucher Park, which is named after our first Librarian in Corpus Christi, Maria Blucher. The renovation will not only uplift the building but it will improve the whole area. In this case, you can judge a book by its cover, and the La Retama building and sign looks like we as a City don't care about public libraries. Let's show that we care and get the renovation done. I cannot attend the Council meeting today because we have a Friends of the Library Board meeting. I am grateful to be able to submit a written comment.

Please vote no to desalination! It's wildly expensive, only actually needed for industry (not residents), harmful for our environment and the residents of our city! Let's love and care for our residents and put them before profits. Please.
