

Gulf Coast Growth Ventures

Gulf Coast Gulf Ventures

- Pledge to work with civic leaders and the community to be a good neighbor and valued member of the community
- Project is very early in the process

- Recently some concerns have been raised about:
 - Noise
 - Sight Lines
 - Lights
 - Emissions
 - Traffic
- Here tonight to answer your questions about the project
 - Review how we are proactively addressing the concerns that have been raised
 - Share plans to communicate ongoing project status with civic leaders and the community
 - Solicit your advice and input on how we can do this more effectively

Gulf Coast Growth Ventures

ExxonMobil & SABIC are evaluating building an ethane cracker along the U.S. Gulf Coast

- Bring unmatched expertise, having worked together in petrochemical ventures over 35 years
- Both companies have industry leading safety and environmental records
- Facility will produce:
 - + Monoethylene glycol, which is used in latex paints, antifreeze, polyester and plastic water bottles
 - + Polyethylene, which is used in plastic film, food packaging, bottles, containers and pipes
- The multi-billion dollar investment will create:

11,000
 construction jobs during the 5-year construction phase

600+
 new, permanent jobs on site

\$90,000
 average annual salary

3,500+
 indirect & induced jobs in the state

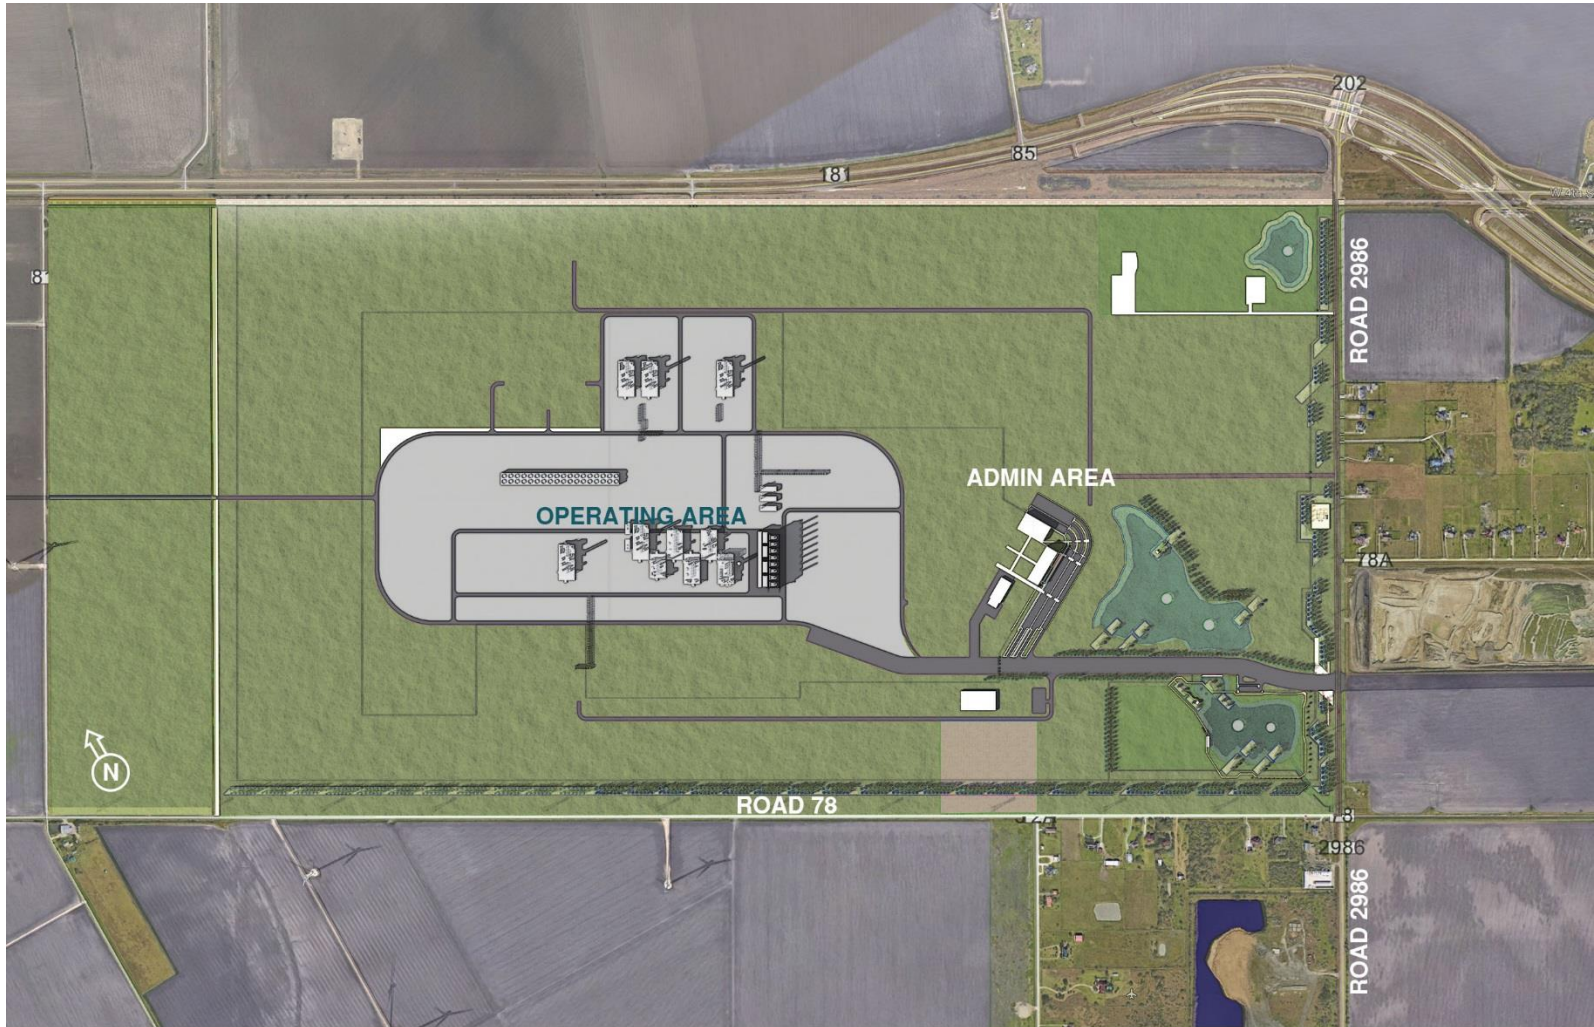

\$22+
 billion in economic gains for the state during construction

\$50+
 billion in economic gains for the state during first 6 years of operations
