SUBJECT: Packery Channel Restoration, Project No. H17019 ("Project")
Notice of Default

This is notice that Callan Marine, Ltd. ("Callan") is in default on the subject project. Callan's failure to adequately perform in accordance with the Contract Documents and meet its contractual obligations, including failure to supply suitable equipment and keep site free from debris, is unacceptable.

The debris that was displaced from the GD 904 sunken barge has been in place at the Packery Channel since September 29, 2022. Callan must submit a recovery and disposal plan with a selected contractor to the OAR no later than Friday, July 28, 2023. The plan must include a detailed schedule that has a disposal completion date no later than August 25, 2023.

If Callan fails to submit an acceptable recovery plan by July 28, 2023, or fails to completely remove the barge by August 25, 2023, the City will proceed with remedying the situation and recover the expense from Callan pursuant to paragraph 17.01.B. of the General Conditions of the Contract.

Sincerely,

Jeff H. Edmonds, P.E.
Director of Engineering Services
