### Upgrade Automated Fingerprint Identification System (AFIS)

**CAPTION:**

Resolution finding that competitive bids are not required for procurement from 3M Cogent, Inc., and authorizing the City Manager, or designee, to execute agreements with 3M Cogent, Inc., totaling \$98,949.60 for the purchase of software and hardware to upgrade the existing automated fingerprint identification system.

**PURPOSE:**

Currently the hardware and software are out of date and out of compliance with Criminal Justice Information Systems standards.

**BACKGROUND AND FINDINGS:**

This system is a stand-alone Automated Fingerprint Identification System (AFIS) purchased in December 2006. AFIS provides automated fingerprint search capabilities, latent searching capability, electronic image storage, and electronic exchange of fingerprints and responses. It allows us to identify suspects in criminal cases where no other information exists.

Currently the hardware and software are out of date and out of compliance with Criminal Justice Information Systems standards. We have been informed by the security group at MIS that the server for this computer represents the highest level of vulnerability for a cyber-threat of any system in the City of Corpus Christi.
