Development Plan: The subject property is 24.620 acres in size. The owner is proposing the construction of single-family homes.

Existing Land Uses & Zoning: The subject property is currently zoned “FR” Farm Rural District, consists of vacant land, and has remained undeveloped since annexation in 1962. To the north are properties zoned “RS-6” Single-Family 6 District and consists of single-family residences (Callicoate Estates, 1982). To the south are vacant tracts zoned “FR” Farm Rural District. To the east are properties zoned “RS-6” Single-Family 6 District and consists of single-family residences (Callicoate Estates, 1982). To the west are a few large tract single-family residences (Hearn Tract, 1980) zoned “RS-6” Single-Family 6 District and the American Electric Power Service Center and Substation zoned “IH” Heavy Industrial District.

Utilities:

Water: 8-inch ACP line located along Callicoate Road.

Wastewater: 8-inch VCP line located along Lott Avenue.

Gas: No service currently available.

Storm Water: Roadside drainage along Callicoate Road.

Plan CC & Area Development Plan Consistency: The subject property is located within the boundaries of the Northwest Area Development Plan and is planned for

medium density residential uses. The proposed rezoning to the “RS-4.5” Single-Family 4.5 District is consistent with the adopted Comprehensive Plan (Plan CC). The following policies should be considered:

- Encourage orderly growth of new residential, commercial, and industrial areas (Future Land Use, Zoning, and Urban Design Policy Statement 1).
- Promote a balanced mix of land uses to accommodate continuous growth and promote the proper location of land uses based on compatibility, locational needs, and characteristics of each use (Future Land Use, Zoning, and Urban Design Policy Statement 1).
- Encourage residential infill development on vacant lots within or adjacent to existing neighborhoods (Future Land Use, Zoning, and Urban Design Policy Statement 3).
- Encourage convenient access from medium-density residential development to arterial roads (Future Land Use, Zoning, and Urban Design Policy Statement 3).
- Support the separation of high-volume traffic from residential areas or other noise-sensitive land uses (Future Land Use, Zoning, and Urban Design Policy Statement 3).
- Promote interconnected neighborhoods with appropriate transitions between lower-intensity and higher-intensity land uses. (Future Land Use, Zoning, and Urban Design Policy Statement 3).

Department Comments:

- The proposed rezoning is consistent with the adopted Comprehensive Plan (Plan CC).
- The proposed rezoning is compatible with neighboring properties and with the general character of the surrounding area. The proposed rezoning does not have a negative impact upon the surrounding neighborhood.
- A preliminary plat was submitted by the applicant identifying 126 dwelling units. Compared to the acreage, the density would be 5.25 dwelling units per acre which is compatible with the future land use of medium density residential. According to Plan CC, medium density residential is defined as between 4 and 13 dwelling units per acre.
- The proposed “RS-4.5” District does technically constitute the potentiality for an increase in density of single-family homes compared to the surrounding “RS-6” District residential subdivision to the north and east. However, based on the data from the submitted preliminary plat, the average lot size is 6,268 square feet. The smallest lot size is 5,425 square feet and the largest lot is 15,666 square feet.

Planning Commission and Staff Recommendation (May 1, 2019):

Approval of the change of zoning from the “FR” Farm Rural District to the “RS-4.5” Single-Family 4.5 District.
