

Grant Activity Update

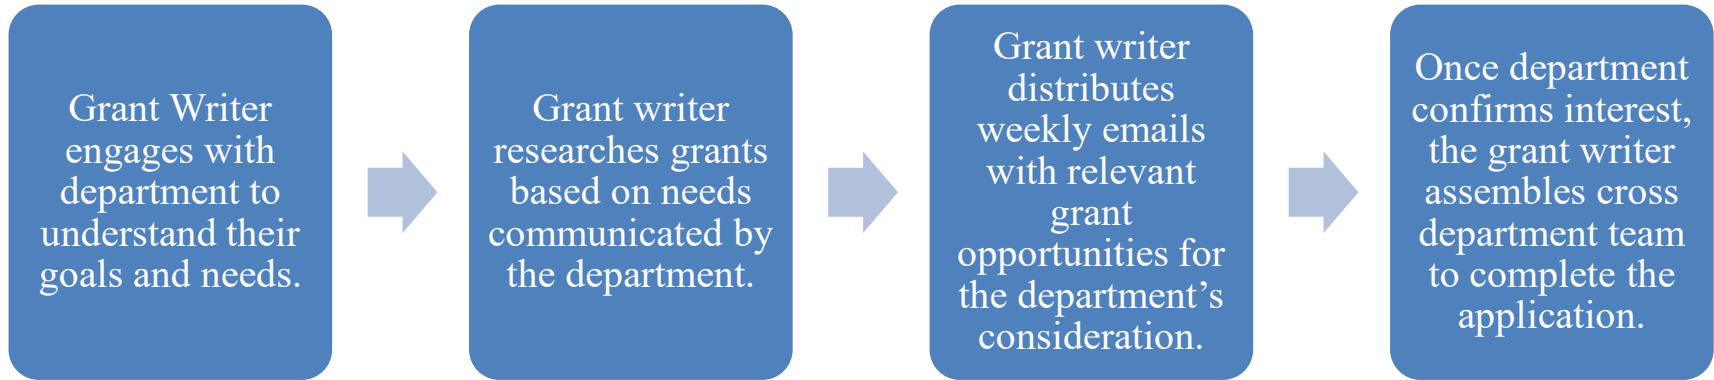

City Council Meeting
May 13, 2025

Background

- **Prior to 2022**, grants were managed by the departments as there was not a dedicated grant writer. Departments were solely responsible for the application process, award process, and reporting for all grants that they were awarded.
- **FY22 Budget** - grant writer position was added to the Finance Department.
- **FY25 Budget** - a second grant writer was added.
- In addition to the two positions in Finance, there are positions in other departments that work on grants along with other daily duties including the Health Department, Fire Department, and Police Department.

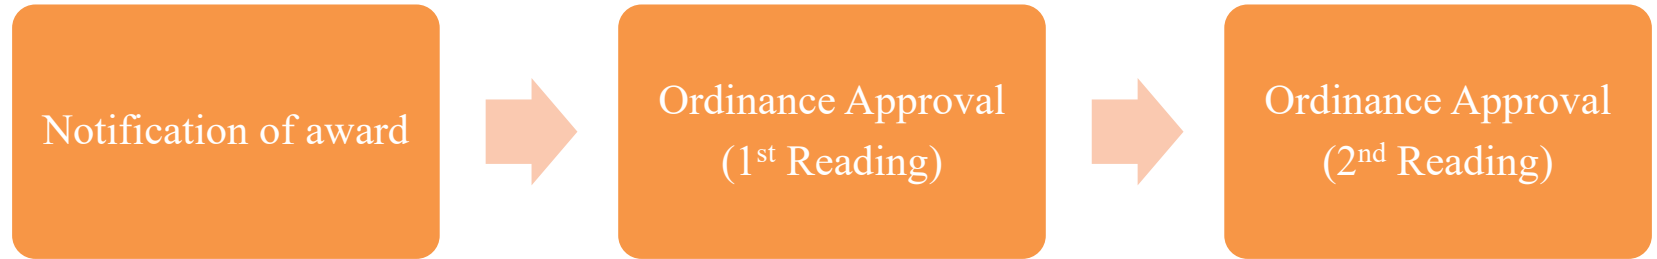

Research & Development Phase

Pre-Award Phase

Award Phase

Post Award Phase

Grant Totals
