### Interlocal Agreement for Storm Water Debris Study

**CAPTION:**

Resolution authorizing the City Manager to execute an Interlocal Agreement with Texas A & M University – Corpus Christi for a storm water floating debris study

**PURPOSE:**

This item is to approve the Interlocal Agreement with Texas A&M - Corpus Christi (TAMU-CC) for a storm water floating debris study.

**BACKGROUND AND FINDINGS:**

The TCEQ Municipal Separate Storm Sewer System (MS4) Permit requires the City of Corpus Christi to implement a program to reduce the discharge of floatables (e.g. litter and other human generated solid refuse) into the MS4. As part of a multi-faceted approach, the Water Utilities Department will coordinate with Texas A&M University – Corpus Christi Coastal Health & Water Quality Lab to place floating booms in storm water outfall locations to collect floatables after rainfall events. TAMU-CC will collect, sort, weigh, classify and dispose of floatables and provide the City of Corpus Christi with the data collected.

The project plan has complied with City Code of Ordinances Part II, Section 12-2 – Placing obstructions in Corpus Christi Bay and has received authorization from Texas General Land Office, U.S. Army Corp of Engineers, and U.S. Coast Guard. There will be no cost incurred by the City of Corpus Christi for this project.

**ALTERNATIVES:**

Use City of Corpus Christi resources and funding to better understand how to improve management of floatables.

**OTHER CONSIDERATIONS:**

Not applicable.

**CONFORMITY TO CITY POLICY:**

This purchase conforms to the City’s purchasing policies and procedures and State statutes regulating procurement.

**EMERGENCY / NON-EMERGENCY:**

Non-emergency.

**DEPARTMENTAL CLEARANCES:**

Utilities Department - Water

**FINANCIAL IMPACT:**

Operating       Revenue       Capital      X Not applicable
