Background:

The subject property is 9.9 acres in size, and out of the Layton Manor Subdivision in the Flour Bluff area with existing residential structures, west of the NOLF (Naval Outlying Landing Field)

Waldron, along the north side of Ramfield Road, west of Waldron Road and Flour Bluff Drive. It is under the Military Compatibility Overlay District of the field, specifically under Accident Potential Zone I.

Accident Potential Zone 1 (APZ-1): Accidental Potential Zone 1 is a zone within the Safety Subzone of the Military Compatibility Area Overlay District consisting of areas beyond the clear zone which still possesses a measurable potential for accidents relative to the clear zone. Residential. Accident Potential Zone I of the Military Compatibility Overlay District prohibits residential uses of any density; however, vacant platted lots which are zoned for residential uses; and unplatted properties zoned for residential may be platted and used for single residences, providing they conform to all other applicable requirements of the Military Compatibility Overlay District. In either scenario, such lots may not exceed the density of one single-family residence per acre.

To the north, properties are zoned "FR" Farm Rural District with current land uses of Low-Density Residential, public/semi use, and a vacant property. To the east and west, properties are also zoned "FR" Farm Rural District, with some parcels vacant, and another with public/semi public use. To the south, properties are zoned "RE" Residential Estate with Low-Density residential uses.

The applicant is requesting a change in zoning from the "FR" Farm Rural District to "RS-15" Single-Family 15 District to allow subdivision of the land, which will in turn accommodate an additional single-family structure.

The "RS-15" Single Family 15 Residential District permits single-family detached houses and group homes. A limited number of public and civic uses are allowed, subject to the restrictions necessary to preserve and protect the single-family character of the neighborhood.

Plan CC (City of Corpus Christi Comprehensive Plan) Consistency:

The proposed rezoning is consistent with the following Elements, Goals and Strategies for Decision Makers:

- Future Land Use, Zoning, and Urban Design:
 - Regulations to protect military and civilian airfield and airport use are in place.
 - Continue to consider the compatibility of proposed uses with military airfield operations when making decisions on rezoning requests.
 - Avoid development that is incompatible with the operation of military airfields and the airport.

Flour Bluff ADP (Area Development Plan) and FLUM (Future Land Use Map) Consistency:

The proposed rezoning is consistent with the Flour Bluff ADP and FLUM designation of Low-Density Residential.

Staff Analysis:

Staff reviewed the subject property's background information and the applicant's purpose for the rezoning request and conducted research into the property's land development history to include platting, zoning, existing surrounding land uses, and potential code violations. Staff compared the proposed zoning's consistency with the applicable elements of the comprehensive plan. As a result of the above analysis, staff notes the following:

- The proposed rezoning is consistent with the City of Corpus Christi Comprehensive plan and the future land use designation of low-density residential.
- The amendment, if approved, will be compatible with the present zoning and conforming uses of nearby properties, and with the character of the surrounding area.
- The property to be rezoned is suitable for use permitted by the zoning district that would be applied by the proposed amendment and will not have a negative impact upon the surrounding neighborhood.

Staff Recommendation:

After evaluation of case materials provided and subsequent staff analysis including land development, surrounding uses and zoning, transportation and circulation, utilities, Comprehensive Plan consistency, and considering public input, staff recommends approval of the change of zoning from the “FR” Farm Rural District to the “RS-15” Single-Family 15 District.
