

Agenda Item 5
Texas Administrative Code

Summary of Proposed Amendments, New Sections, and Repeals in Chapter 2

The Texas State Library and Archives Commission (commission) recently approved the publication of multiple proposed repeals, proposed amendments, and proposed new sections within Chapter 2 of Title 13 of the Texas Administrative Code, General Policies and Procedures. Chapter 2 consists of two subchapters – Subchapter A, Principles and Procedures of the Commission, and Subchapter C, Grant Policies. The proposed changes result from the commission's recent review of all of the rules in Chapter 2. In general, the proposed changes are largely non-substantive and are intended to streamline, simplify, update, reorganize, and clarify the existing rules. Several rules are proposed for repeal as they are unnecessary, are being consolidated into other rules, or being repropoed with improved language.
