---

- The proposed rezoning is inconsistent with the Future Land Use Map.
- However, the proposed rezoning is consistent with many broader elements of the Comprehensive Plan.
- Industrial uses are typically located near major transportation routes and are small-to-medium in scale. The site is appropriate.
- The proposed development is compatible with the surrounding uses.
- Industrial uses are typically located near major transportation routes such as highways, in this case, IH 37.
