Education, Professional and/or Community Activity (Present)

BA Linguistics from New York University JD Candidate at Tulane University Law School Co-Founder, Executive Director, and Board Chair of Eco-SCI

Why are you interested in serving on a City board, commission or committee?

Growing up in Corpus Christi as a child, the beach and Gulf Coast were integral to my upbringing. So much so that it has driven me to pursue a JD concentrated in Environmental Law, and founded a 501(c)(3) nonprofit organization dedicated to environmental protection. My undergraduate studies in Marine Ecology and Anthropology have also made me an effective communicator, an expert in conflict resolution, and very dedicated to sustainable development. I have also noticed that this committee is split with 3 members being industry members, and 3 members being non-industry members, but without specific intent to include environmental concerns. In my duties in working with Eco-SCI, my Marine Pollution studies, and my time interning at the Gulf Restoration Network, I have realized that I have a great deal of skills that could effectively benefit the Oil and Gas Advisory Committee. Despite often being out of town for law school, I make a point of spending time in Corpus out on the bay with my family.

If you applied for multiple boards, which boards are you most interested in serving on, in order of preference? (Limit to top three)

1. CIVIL SERVICE BOARD 2. OIL AND GAS ADVISORY COMMITTEE 3. REGIONAL HEALTH AWARENESS BOARD

Why are you interested in serving on a City board, commission or committee?

1. CIVIL SERVICE BOARD I feel it is critically important that civilian citizens have input on these civil service issues. I also do not think it is okay that the city's youth is being excluded from this board. I looked into the city charter and could not find any language pertaining to the civil service board that mandated that members had to be of 25 years of age or older. I could only find that language for the very similar Civil Service Commission. Since the commission and board share essentially the same duties and have the exact same three members, I can see why there might be some confusion. However, I see no legal reason within the city laws to prohibit myself, a 23 year old, from serving as an alternate on this board, and given that these seats have been unfilled for quite some time, I hope that you will review the charter and consider my request. It is not often that a 23 year old is passionate enough about an issue to pour through city documents to determine their legal eligibility for a non-voting alternate seat on an obscure city board - but I REALLY care about this. 2. OIL AND GAS ADVISORY COMMITTEE I care deeply about our community's environmental safety and prosperity and would very much value the chance to offer my citizen input from the perspective of someone outside of the industry. 3. REGIONAL HEALTH AWARENESS BOARD I feel that my educational background in Biology and Public Administration would make me a useful member of this board.

Advocacy Corps organizers connect local activists and leaders with their local member of Congress to affect big, long-term change. During the course of this program, Advocacy Corps organizers learn critical organizing skills and put them into practice with hands-on leadership experience**

- Organized diverse groups of people across the state of Texas to lobby their elected officials in-district on Immigration policy, facilitating a total of 59 direct lobby visits between constituents and their MOCs.
- Utilized effective media strategies (press conferences, op-eds, and social media) to build momentum and response around urgent immigration-related situations as they arose in real time under the Trump administration
- Mobilized citizens across Texas to reach their members of congress through effective media, particularly MOC-targeted op-eds and LTEs, resulting in 27 pieces of published constituent media deliverables on immigration policy.
- Pioneered an "Action Alert" model still in use by FCNL for mobilizing constituents to write and publish LTEs, streamlining the process by providing a user-friendly template and automatically directing constituents to their local paper's LTE submission forms.
