

# O.N. Stevens Water Treatment Plant Site Infrastructure Improvements

Council Presentation  
April 10, 2018

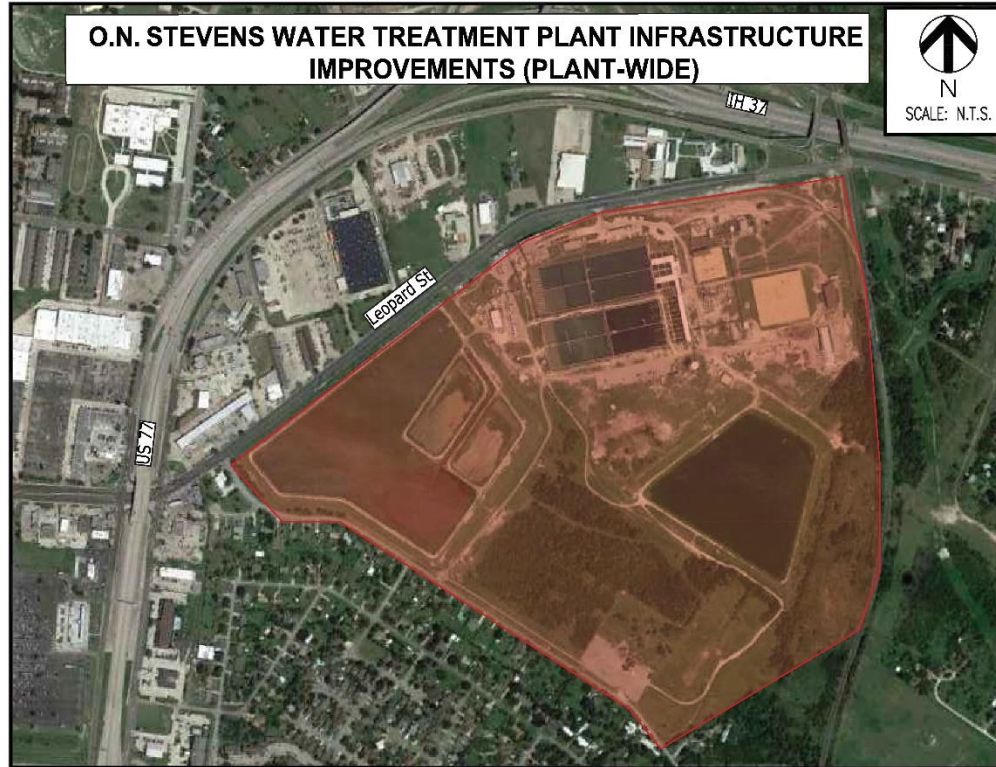

# Project Location

# Project Vicinity

# Project Scope

This MSA provides for engineering and design services for critical upgrades of all water treatment facility infrastructure elements. The engineer will:

- Conduct field investigations, assessments, evaluate conditions of existing infrastructure and report findings in Engineering Letter Reports
- Participate in workshops with third-party design engineers and contractors to coordinate improvements with ongoing work
- Prepare detailed construction documents for proposed improvements and conduct design review workshops
- Conduct pre-bid meetings, evaluate bid results, procurement quotes, and make formal recommendations for award
- Provide construction administration, inspection, and technical support

# Project Schedule
