**Education, Professional and/or Community Activity (Present)**

I hold a Bachelor's Degree in Biochemistry with a minor in Biology and Women's studies and a Certificate in the History and Philosophy of Science. I am currently in school working towards my Masters in Education. I am a mother of 5 children and use the library on a weekly basis. I am on the board of Communities in Schools, the Women's and Men's Health Services, Chair of the CCISD School Library Board Advisory Committee and from 2022 I have served as a committee member on the American Cancer Society's Style Show.

**If you applied for multiple boards, which boards are you most interested in serving on, in order of preference? (Limit to top three)**

---

NA

**Why are you interested in serving on a City board, commission or committee?**

As an avid reader and mother of 5 active readers I frequent the library on a regular basis. The library provides so many amazing things in our community and I would like to help sustain and grow its utility in our community. I believe my unique perspective as a mother of 5 children (the youngest being 5), a Hindu-American military spouse, and having used libraries around the globe will be beneficial to the Corpus Christi Library Board.

**Why are you interested in serving on a City board, commission or committee?**

---

As I was a teacher in the Public Schools for 26 years and a teacher in Private Schools for 2 years with a specialization in Reading, I have a strong motivation and interest in serving the community. I want to promote the education and welfare of citizens, especially youth and children. I want to promote the safety and general welfare of our city as a whole by having a thriving and successful community. That starts with education and libraries and literacy are an essential element of that.

**Why are you interested in serving on a City board, commission or committee?**

---

I come from a family of educators and two of my sisters were Librarians. I was an English and Special education Teacher in Texas, prior to attending law school. I believe in the importance of a free library as one of the most important elements of a community, both as a service to the citizens and children, but also to help them become better informed members. My background in education, special needs children, and the practice of Family Law in Corpus Christi for 49 years has instilled in me a high interest in access to books, both for entertainment and education. I would like to contribute to the ongoing discussion of content of library books and services to all. I believe not only my background with education and children ( I am one of ten, and taught children) but also my experience in collaborative resolutions to problems as a mediator, would be helpful as a board member.

**Why are you interested in serving on a City board, commission or committee?**

---

My many years as a librarian encompassed public schools, public libraries, and universities. My interest in libraries has never waned. As I see what the agenda of the five board members who are up for renewal has been, I feel it is imperative for me to stand up. They have wasted money and staff hours on an agenda that they came in with from the other groups to which they are associated. My background makes me an asset to the Library Board as I will use common sense for the betterment of our libraries in the interest of our community..

BA in English from Louisiana College (recently renamed Louisiana Christian University) Gave a presentation March 24, 2025 at the Neyland Library on SEO and "Making Your Website Easier to Find" Mostly involved in community via my son at Incarnate Word Academy and Pack 162 of the Cub Scouts

## Why are you interested in serving on a City board, commission or committee?

---

I'd like to see libraries grow and connect with more of the public, continuing to serve families with kids but also the rest of the community. The current lack of funding and limited hours make libraries and their events less accessible to working adults. I'd like to help the Library Board support other fundraising channels beyond the local government, preferably involving events or publications that bring the community together across political divides. For example, historical photos and maps from the archive could be used for an educational fundraising calendar about the city. Posting educational content like oral history videos on social media could reach a much wider audience than in-person events. As the father of a first-grader at IWA, I appreciate the concerns about appropriate reading material. The Neyland Library has moved a section of Young Adult Manga away from the children's side of the building, and I support that kind of common-sense move. At the same time, I feel like our bigger battles are promoting literacy and pulling kids away from television and other screens. With Netflix currently making a Chronicles of Narnia adaptation, that could be an opportunity to promote classic books that dig a little deeper than Dog Man. With my digital marketing background, I see that the library system isn't taking full advantage of social media. I hosted my own talk (on SEO and websites) at the Neyland library back in March of 2025, and it was only sparsely attended, so I don't have a quick fix for marketing events, but I do have ideas and a willingness to dig into whatever information is available. Overall, I would like to see the libraries rally more public support and bring people together. If more people regularly used the libraries and watched/shared their content on social media, then a swell of public support would help with funding.
