# Wastewater System

## Staff Recommendation

# **Approve proposed Wastewater Collection System Master Plan Amendment**

1. Reasonable amendment that facilitates development.
2. Construction of wastewater lines by private developers could take 15 years or longer.
3. No publicly funded wastewater lines will be constructed to serve the subject property within the developer's timeline.
4. The proposed transfer of acreage from one service basin to another maximizes use of existing wastewater infrastructure.
5. Existing system to the north has capacity
