Radiologist

Why are you interested in serving on a City board, commission or committee?

Radiology, albeit essential for timely and accurate diagnosis, distances me from the very folks that I intend to serve. Images of their bodies cross my workstation for me to determine normal versus abnormal, but at the end of the day, I lack the real human-to-human connections that are integral to community. My view of society and my role within it continue to evolve, particularly with respect to injustices and inequalities within our institutions, including healthcare. My goals with respect to this board include, 1. listening, 2. learning about the impediments to a healthy local lifestyle, 3. empowering individuals and families to take control of their health, 4. gauging our community's thoughts on death and dying, and 4. exploring various other topics with variable links to health, such as the climate crisis, vaccinations, diet, car-centric city design, drug use, homelessness, criminal justice reform, immigrant rights, gun violence etc.
