In 2001 he was elected Chairman of the Board of the National Educational Telecommunications Association (NETA), a professional association comprised of the nation's Public Television stations. He has lobbied Congress on issues important to the broadcasting industry.

Don recently served two year term as the Chairman of the Board of the Texas Public Broadcasting Association, which advances the educational mission of the 10 Texas PBS stations and 22 Public Radio stations.

Don has raced sailboats of all types since he was a teenager and was nationally ranked sailor when in college. He has competed in regattas in numerous locations around the country which gave him an opportunity to visit many marinas in different states while competing in sailing events.

Marina

Why are you interested in serving on a City board, commission or committee?

I believe in serving the community and have skills that will add value to decisions made. When I moved to Corpus Christi as a young Engineer I personally conducted the underwater survey of damage to our Seawall and L-Head/T-Head structures with Goldston Engineering. The resultant reports and design proposal was adopted by the city and is in place today. Furthermore I was instrumental in collecting and presenting data to Congress that brought the Homeport to Corpus Christi. I worked on the GCCA Redfish hatchery and King Ranch Shrimp Farm in the 1980. I went on to work in the International Oil and Gas Industry as an engineer and progressed to VP of a Major Supplier of Equipment and Services Worldwide. I had 200 employees and offices in Corpus Christi, Houston, Chicago, Norway, Dubai and Singapore. After retiring I started an independent engineering company focused on Texas Windstorm Certifications and Marine Industrial Infrastructure.
