

Greenwood Wastewater Treatment Plant Dissolved Air Flotation Unit Rehabilitation and Odor Control

Council Presentation
June 12, 2018

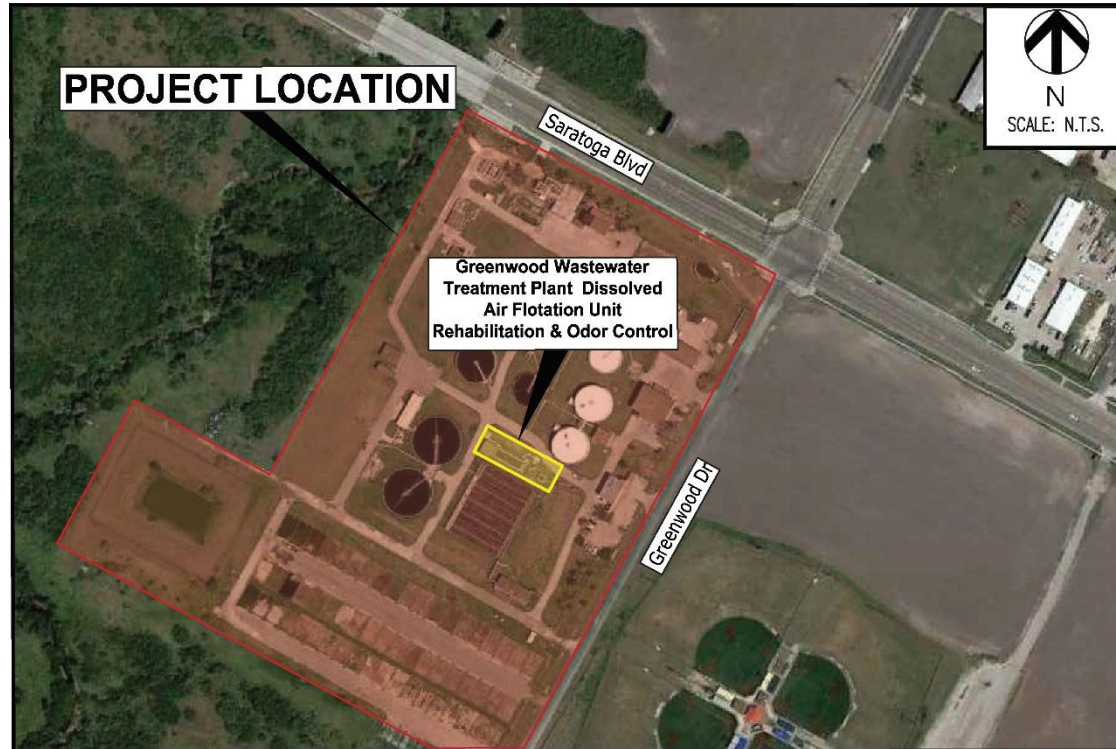

Project Location

Project Vicinity

Project Scope

Amendment No. 1 includes:

- Evaluation of existing plant unit processes and infrastructure to convert treatment into alternative process with better efficiency and less odor.
- Recommendation for immediate operational optimization may improve GWWTP efficiency with potential cost savings gained through reconfiguring current operations.
- Development of conceptual design report and opinion of probable cost for selected alternative will provide detailed design improvements needed at Greenwood Wastewater Treatment Plant.
- Additional services include Texas Commission on Environmental Quality coordination and coordination with on-going Greenwood projects.

Project Schedule

2018								
MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV
Preliminary Design								
Original			Amendment No. 1 (This Contract)					

Project Preliminary Design Estimate: 270 days \approx 9 months

Projected Schedule reflects City Council award in June 2018 with preliminary design completion in November 2018.
